ANNUAL REPORT OF THE BOARD OF SELECTMEN

On March 5, 1935, this Board took office for the second consecutive year and organized with Mr. MacGregor as Chairman, Mr. Gardella, the Chairman since his first election to the Board, desiring to be relieved on account of the demands of his own business.

The duties of the Selectmen, in common with those of the other Town officers, have increased tremendously in recent years, necessitating special meetings almost weekly, and numerous conferences and consultations arising out of the matters involved. Aside from these general matters, which are too numerous to mention in this Report, we will refer to some of the more important matters which arose during the year.

I.

Two years ago, the Selectmen inaugurated a survey of the fire insurance on Town buildings, the amount of coverage and the cost to the Town. We are glad to say that during the year this survey was completed and a new system was adopted, resulting in increased insurance at lower costs. This was done through the cooperation of the local agents and their companies. An appraisal was made of Town buildings by a competent insurance appraiser and architect; rates on all buildings were checked and reductions obtained on nearly all of them; and a so-called schedule form was suggested, and after conferences with all departments placing insurance, it was decided to adjust the insurance in accordance with the appraised values and reform all existing policies with the schedule form. All money appropriated for insurance by all departments was pooled, and with approximately \$1,200.00 return pre-

miums on existing insurance due to reductions in rate, the additional insurance and renewals were written for as long a term as was possible with available funds. When the plan is completed, some one hundred fifty policies will be reduced to about five or ten. The necessary additional insurance has been distributed among all agents in Town, and the reduction in the number of policies has and will further be reduced without loss to any agent.

It is the ultimate plan to have all policies issued for a five year period with one-fifth of the insurance expiring each year, thus taking advantage of the saving by writing policies for five years at four times an annual premium and thereby reducing the annual appropriations to a minimum; that is, one-fifth of the total insurance can be written for five years at less than all insurance can be written for one year. Heretofore, each department has included in its budget an amount for insurance, and under this new plan, one appropriation will be made to take care of all fire insurance.

In round numbers, under the old plan, the Town has covered for \$253,460.00 at an annual cost of \$2,100.00, but under the new system the Town will be covered for \$795,309.00 at an annual cost of \$4,215.00. Put in another way, for about twice the cost, the Town is covered for over three times as much. This does not include the new high school addition which will be added in the same proportion.

II.

The P. W. A. Act of 1933, under which the high school addition was constructed, had expired, but anticipating that the Federal Government would continue its policy of stimulating public works in 1935, by a grant of a fractional part of the cost, the Selectmen formulated and submitted the following projects for consideration:

1. May 28, 1935, Imhoff Trickler Unit at Sewage Plant.
2. May 28, 1935, Athletic Field.

3. June 19, 1935, Comprehensive scheme for construction of sidewalks throughout Town.

4. June 19, 1935, Cedar Swamp Pond Improvement.

On January 29, 1935, all four projects had been submitted to His Excellency the Governor in response to his invitation to the towns throughout the state to submit their data to him as a basis for his request of the Federal Government for Massachusetts' share of the fund to be asked of the incoming Congress.

After the filing of these application, the Selectmen were notified that the Sidewalk, Cedar Swamp and Athletic Field projects were not eligible under the P. W. A. 1935 program, but that the Sewer project would be considered. On August 7, 1935, the Sewer project was approved and \$40,500.00 was granted to the Town. The total cost of this project was approximately \$122,000.00, of which the Town's share is approximately \$50,000.00, \$40,500.00 being provided by the P. W. A. grant, and \$32,000.00 having been expended under the E. R. A. Thus a much-needed improvement has been brought to the Town at less than one-third of the cost, as the lack of facilities at the beds has been a source of agitation for many years and the cause of numerous complaints by the State Board of Health.

The Sidewalk, Cedar Swamp Pond and Athletic Field projects were then submitted under the E. R. A. The Sidewalk project has been approved in separate projects, work has been completed on many of them, work is being done on some of them, and the remainder will be started as soon as the present ones are completed. The Cedar Swamp Pond and Athletic Field were combined in one application, but it has met with many difficulties.

As far back as the summer of 1933, the Cedar Swamp Pond project was submitted to the P. W. A. accompanying the proposal for the high school addition, but the High School project was given the preference by the Federal and State Boards. In early 1934, the Select-

men secured an allotment of \$25,000.00 to begin work under the C. W. A., but in May, 1934, the C. W. A. was terminated and with it went the \$25,000.00. The project was then re-submitted under the P. W. A. Act of 1935, the local planning engineers preparing the necessary specifications embodied in the application, only to be declared ineligible as a P. W. A. project, as above stated.

On July 24, 1935, the project was submitted to the E. R. A.—W. P. A. on the local engineers' specifications, based on a total cost of \$202,260.00, of which \$31,126.00 was the Town's share, and \$171,134.00 was requested from the Federal Government. This application was returned with instructions that additional surveys be made by the E. R. A. engineers at Boston. In September, specifications were received from them, estimating a total cost of \$236,589.30, of which the Town's share was \$44,635.80 and the Federal Government's share \$191,953.50. Upon receipt of these specifications, a new application based on these estimates was prepared and filed.

Pending approval of the application, and to save unnecessary delay, on September 16, 1935, the Town voted to borrow \$45,000.00 under a special statute (Acts 1935, Chapter 188) provided that the Federal Government allotted \$192,000.00 (the sum necessary to complete the work according to the estimates of the Federal engineers) and provided further that before the work was started the Selectmen were to determine that no land damages would be incurred by the Town.

Immediate work was then begun to find out the extent of the Town's holdings in the pond area. The Town, on December 12, 1929, had made a purchase of the property from the Cutler Company for \$5,000.00, but the deed merely conveyed "all the property that the Cutler Company had purchased from S. A. Eastman on April 2, 1906," with certain exceptions incorporated by reference. A copy of the Eastman-Cutler deed, procured at the Registry of Deeds, disclosed a description including twenty-six separate deeds dating as far back as 1829.

Some covered flowage rights, others purported to convey parcels in fee, but there was excepted from this description various parcels of doubtful sizes and shapes conveyed out. The metes and bounds in many instances were fixed at lands of adjacent owners long since deceased, by heaps of stones, rocks and stumps of trees long since gone. To fit in those various descriptions with each other, to ascertain their relation with the abutting owners, and to apply the descriptions to the land surface partly covered with water and mud, resembled a jig-saw puzzle of the most exacting character. Nevertheless, the vote of the Town of September 16, 1935, was a mandate to the Selectmen to save land damages before starting the work, and could not be ignored. The local planning engineers have rendered valuable services in this connection, but the work seemed interminable.

Henry W. Gaskill, C.E., was secured to work in cooperation with them on account of his long familiarity with the location and because of the various surveys he had made of properties surrounding the pond area. Several successive reports have been made, and while no actual guarantee of the title or accurate determination of the boundaries or the precise extent of the Town flowage rights can be given, rather than hold up the project indefinitely, the Selectmen were advised by the Town Counsel that they were reasonably justified in starting the work.

The expense of further title work will fall on the Town because the Federal Government no longer carries the planning project, the engineers of which assisted Mr. Gaskill in the work.

The land damage feature being thus disposed of, although not quite satisfactorily, more trouble was encountered. When the application was later approved, it was found that the Federal Government would contribute but \$172,000.00 instead of \$192,000.00 as required by the Town vote of September 16, 1935. By this time, the authority to borrow under the 1935 Act had expired. To

remedy the situation, legislation has been introduced in the present Legislature to validate the Town's vote so that the borrowing of the money can be done in 1936. It is hoped that this legislation will become law before the Annual Town Meeting of March, 1936, in which case an Article will be inserted in the Town Warrant for the consideration of the Town Meeting, reducing the amount of the Federal contribution from \$192,000.00 to \$172,000.00, and the Town's share to about \$40,000.00 to square with the amounts approved by the Federal Government. It is to be observed, however, that whatever aid the W. P. A. gives on this project will be inclusive of all projects and not in addition thereto, so that other W. P. A. work in Milford will be diminished to the extent of that done on the pond.

Thus, it will be seen that the Cedar Swamp Pond problem has occupied the constant attention of the Board of Selectmen since the beginning of the Federal program. For four years, since the property was purchased by the Town, nothing was done with it until 1933, but the Selectmen will continue their efforts in striving to improve the unsightly and unsanitary conditions that have existed there so long.

III.

A War Memorial Project, replacement of wooden by concrete bridges, cannery, sewing project, Hayward Street dump, Rifle Range, and many others have been carried on under the E. R. A. and its successor, W. P. A., the Town furnishing the materials by competitive bids. As in other years, the influx of Federal money has reduced the cost of local relief, although not to the extent of 1933 and 1934. For while in 1933 at one time, 702 persons, and in 1934 443 persons were employed, at the date hereof but 320 persons are employed under the W. P. A.

As pointed out in the Selectmen's Report last year, suggestions from all departments and the public for new

projects have been welcome, and while countless numbers have been submitted covering all sorts of various improvements, the ones selected rest in the last analysis with the State Administrator.

IV.

An increase of \$7,300.00 in the Federal grant for the high school addition was secured to cover part of the cost of furnishings; ; Cedar street construction was completed to the Middlesex County line; and a portion of Medway street was rebuilt during the year. Approximately, three-fourths of the cost of this work was furnished by the County and State, although their contribution did not equal previous years on account of a fifteen per cent reduction of their appropriations. Thirty thousand dollars have been borrowed during the year on tax titles, thus liquidating uncollected taxes and giving the taxpayer a period of time within which to repay the loan. As has been pointed out, the repayment of this loan is not made by the town, but as each taxpayer redeems its property, the money goes direct to the State Treasurer and the Town is given credit on the loan.

In conclusion, we express our satisfaction to the citizens as a whole for their goodwill, patience and understanding of the local problems that have arisen, and we thank all the other Town departments for their cooperation in carrying on the work of Town government.

Respectfully submitted,

In Memoriam

The death of Dr. George Frederick Curley on April 15, 1935, cannot be permitted to pass without some official recognition by the Town of Milford, the chosen field of his labors for over a third of a century.

Born on June 1, 1872, in the adjacent town of Upton, his boyhood days were spent among the humblest of surroundings, and his time was divided between farm chores, studies and grocery clerk. Nevertheless, he graduated from Upton High School in 1889, and he earned his Bachelor's degree at the State College in Amherst in 1893, an environment that produced Calvin Coolidge, Dwight P. Morrow, and Justice Stone of our Supreme Court at Washington. No graduate of any college anywhere ever left his alma mater with a broader knowledge of classical learning, or with a firmer grip of the virtues of common honesty, patriotism and nobility of character than did he, attributes that remained with him throughout his whole life.

His medical school was Jefferson in Philadelphia, an institution that bears the name of one of the foremost disciples of political equality, educational opportunity and religious freedom in America. After an internship in Elizabeth, New Jersey, he returned to his native Worcester County in Massachusetts, and in 1897 he began the practice of medicine in this Town, which was destined to reach over a span of thirty-eight years.

Much has been said and written of his capacity as a surgeon, physician and medical man, but nothing describes him better than what the French people have inscribed on the monument to their beloved Pasteur in the City of Paris:

"To cure sometimes,
To relieve often, but
To comfort always."

In his thirty-eight years of service, every patient he ever visited was either cured by his skill, relieved by his

medical talents, or comforted by his kindly patience and friendly charm. He saw humanity as Longfellow saw it,

“Toiling, rejoicing, sorrowing,
Onward through life he goes,
Each morning sees some task begun,
Each evening sees it close.”

For his life was one of “toiling, rejoicing, sorrowing,” and he seemed to sense that the lives of all of us were cast in the same mould. Though he reached the very pinnacle of success, professionally, financially, honored by a Fellowship in the American College of Surgeons, the first medical examiner of his religious faith to be appointed in this district, esteemed by his brother doctors as a leader of leaders in medical science, there was no barrier between his invincible soul and the soul of the humblest man, woman or child. He shared with mankind their toils and their sorrows, and his charity never failed or slackened when anyone, high or low, passed his door, or came within his notice.

The world is better that George Frederick Curley lived, and the Town of Milford and its people and all those countless ones who have felt the soft hand of his charity and his goodness have suffered the greatest of losses.

Milford was proud that in life it could claim him as one of her citizens. In death, the Town, in its poor power to do him honor, causes these sentiments to be placed upon the official records.

Dated this sixth day of May, 1935.

LYNDHURST A. MacGREGOR,
WILLIAM J. HAYES,
JOHN H. GARDELLA,
Selectmen of Milford.

Town Clerk.

Town Solicitor.

REPORT OF E.R.A.-W.P.A. ADMINISTRATOR

*To the Honorable Board of Selectmen and Citizens of
Milford:*

I herewith present to you my second annual report as Administrator of Federal relief funds in Milford, under the Emergency Relief Administration and its successor, the Works Progress Administration, during 1935.

The Federal government spent in wages in Milford in 1935 the staggering total of \$212,848.22 (\$201,760.23 under E. R. A. and \$11,087.99 under W. P. A.), an average weekly payroll for the 52 weeks of \$4,939.40.

The transition from E. R. A. to W. P. A. began here on Nov. 12, and the last E. R. A. project was transferred just prior to the New Year.

Under E. R. A. a definite cash allotment was given each month, while W. P. A. simply allots each community a specified number of men, and these men work steadily until the completion of the particular project to which they were assigned.

The question of who could work and who could not, under E. R. A., was settled by a detachment of Social Service workers, placed in the various cities and towns by the Federal government. In Milford, since November of 1934, a staff of these workers investigated every applicant for relief, and without "certification" by these officials it was impossible for the local Administrator to place anyone at work. The Social Service dictated who should work, and the number of hours. Their decisions caused plenty of friction, and the Administrator, of course, had "to take the rap." Many people who were refused work blamed the Administrator, and either could not or would not understand that he was obliged to take his orders from the Social Service workers. Their decisions were final, and although they have been withdrawn from Milford, their records are on file in the Worcester District office, and these records still are used to determine eligibility for work of all applicants.

Under W. P. A. all Milford records were ordered shipped to the Worcester office. No more workers are hired or assigned in the Milford office. All assignments are made by Herrick J. O'Gara, head of the Assignment division at Worcester, and he secures the names of those who are entitled to work from the Social Service records in that city.

At present, W. P. A. workers, by official orders from Washington, must be selected from those whose names appeared on E. R. A. payrolls between May and November of last year. Here, again, is trouble. Many men left the E. R. A. last spring for private employment, thus making room for some less fortunate person on the E. R. A. Now, with work in his private line quiet, the man who tried to better himself finds he is not eligible to come back to the W. P. A. The local Administrator has fought for the rescinding of this unfair rule, but has been informed that nothing can be done until new orders are received from Washington.

W. P. A. gives a steadier income than did its predecessor. It pays the unskilled worker \$52 per month of 112 hours; the semi-skilled get \$60 a month, and the skilled artisan receives \$77 a month, the latter class, however, working only a sufficient number of hours at the standard rate of their trade to receive \$77. Pay is semimonthly, rather than weekly, and this system of pay-off has caused hardship to many, especially when the checks are several days overdue.

During 1935 a total of 535 persons received government relief checks in Milford. The greatest number on the payroll at any one time in the past year was 486. At this writing 320 are on W. P. A. payrolls. From what can be learned at the Worcester office, Milford is already over its quota of workers and money, and can look for no sizeable increase in either in the immediate future.

The Administrator, the Selectmen and the Town Solicitor, assisted by the E. R. A. engineers, last summer began formulating plans to take full advantage of gov-

ernment funds under the W. P. A. We prepared and presented a total of 48 projects, calling for a total of \$483,074.15 from the Federal government. All of these projects have been accepted at Washington. Of course no such vast sum will be given to Milford in its entirety. Washington allots a certain amount of money to its State Administrator, who then apportions this sum among the various district offices in the state. These, in turn, divide the county share among the cities and towns in the district. Town officials of Milford simply made certain that, regardless of how generous Uncle Sam might be, we would have on file projects sufficient to give work to upwards of 1,000 of our citizens, feeling that in this manner we have fully safeguarded the interests of our people in so far as it is humanly possible so to do.

Work done last year included: Drainage about the State Armory on Pearl Street; canning over 9,000 cans of vegetables, fruit, etc., for the needy; repainting the interior of the Claflin School building (two coats); the construction of modern reinforced concrete bridges at Vernon Grove Cemetery, Congress Terrace, Water Street, Westbrook Street and West Walnut Street, and laying of reinforced concrete culverts on Fruit, Taylor and Dilla Streets, and the start of a new concrete bridge at the pumping station on Dilla Street; concrete sidewalks on Claflin, Congress, East Main, Myrtle, North Bow, Pearl, Poplar, Walnut and West Streets, with new granite curbing, necessary catch basins, etc.; repairs at High School; laying of drains and catch basins on Highland Street; Federal Housing project; repairs and new toilets in Plains School buildings; quarrying street curbing and brook walls; rifle range construction and grading, including removal of all rocks from the line of fire, and construction of shelter house; erection of Safety Island at junction of Spruce and Main Streets, with proper illumination, thus eliminating a danger spot for pedestrians; suppression of gypsy moth and other tree pests; remodelling South Main Street fire station and redeco-

orating interior of Spruce Street fire house; contributed \$1,324.50 toward labor for snow removal from our streets; repaired Spruce Street School; repaired Town Infirmary; finished the wall, grading and concrete walks about the Stacy School; widened two corners at Spruce and School Streets, and put in new concrete walks about same; did preliminary excavation at the new Imhoff tank at the sewer beds which saved the town thousands of dollars on the P. W. A. contract recently awarded; kept a force of 50 women busy sewing sheets, pillow cases, underwear, men's and boys' shirts, baby clothing, towels, etc.; continued the walling of the O'Brien and Godfrey Brooks, and numerous smaller projects.

These projects are permanent improvements, and have been frequently favorably commented upon by efficiency engineers sent here from the Worcester and Boston offices. Certainly these projects have saved, and will continue to save, the Town of Milford many dollars yearly that were formerly spent in upkeep of bridges, sidewalks, etc.

One of the big items contemplated for this year is a continuation of the program to build permanent sidewalks all over town. The Selectmen have received numerous petitions, asking for new sidewalks in various parts of Milford, and we have already secured the approval by Washington and State authorities to carry on this work. If the voters will appropriate the money at the March town meeting for the necessary materials, the Board of Selectmen and the Administrator will carry out the wishes of the petitioners. Every section of the town has been included in this ambitious program for new sidewalks. One has but to inspect the new walks already built to be impressed with the vast improvement in appearance, safety and comfort brought about by this project.

Forty-eight projects were approved under the E. R. A. for Milford in 1935. Of these 36 were completed, three were discontinued, and nine were transferred to the W. P. A.

It might be of interest to the voters to know that from November, 1933, to January 1, 1936, the Federal government has distributed a grand total of \$524,397.30 to Milford workers, as follows: C. W. A. (1933-34), \$165,549.08; E. R. A. (1934-35), \$201,760.23; W. P. A., \$11,087.99.

In addition to our local projects, about 50 Milford men are employed on the new sidewalks being constructed on the state roads on Prospect and East Main Streets. This work is costing the town nothing, all expenses for labor, materials, tools and trucks being borne by the state W. P. A. and the state of Massachusetts.

The War Memorial and improvements to Cedar Swamp Pond, projects that have been favorably acted upon at town meetings, are still in the formulative stage. Both of these projects, and their difficulties, are very fully discussed and explained in the report of the Board of Selectmen elsewhere in this Town Report; therefore it will not be necessary for further comment on either project here.

On all major items purchased by the town bids were asked for, and the award made to the lowest bidder.

In conclusion, I wish to thank the members of the Board of Selectmen, the Town Solicitor, and other town officials, engineers, supervisors and foremen on the relief program, and many private citizens for their whole-hearted cooperation in the expenditure of this vast fund. The town officials and myself look forward to the coming year with satisfaction, believing that the type of projects already approved, and those to be presented later, will bring additional permanent improvements to the town and commendation from the government, with a decided saving in town funds in the years to come, because of the work now being done with federal funds.

Respectfully submitted,

FRED J. COLEMAN,

E. R. A. Administrator.

W. P. A. Coordinator.

REPORT OF THE HIGHWAY SURVEYOR

To the Voters of the Town of Milford:

I hereby submit my report as Highway Surveyor of the Town of Milford for 1935.

The General Appropriation for this Department this year was at the minimum, \$20,500, and I am asking for the same amount in 1936. This amount is sufficient for me to keep the highways in a passable condition, clean gutters, cut brush, scrape roads, clean drains, and do patching, providing we are granted the Chapter 90 construction, which I anticipate will be done in 1936. The two Chapter 90 jobs that I completed this year enabled me to keep my machinery and operators off this Department's payroll from July to December, and for this reason only was the appropriation sufficient to carry the expenses of this Department for 1935.

The Sidewalk Appropriation was entirely eliminated this year, and I will not ask for a sidewalk appropriation while the Federal funds are being granted for the purpose, but, of course, the necessary repairs on walks from time to time is a drain on my general fund.

The appropriation for oiling streets this year was \$3,500, and this enabled me to resurface several streets, though I am asking for \$5,000 for 1936, and I would recommend that this amount be appropriated, due to the fact that there are many streets that I was forced to neglect this year.

The appropriation for snow removal this year was \$25,000, and I expended \$21,136.95. The cost of snow removal is almost impossible to determine, but due to the fact that we have had so little snow to date this year, I am only asking for \$10,000 for 1936. I purchased a new steel plow to be used with our tractor for plowing

snow, and I am sure that this equipment will be of great benefit to the Department and add greatly to the service to the people in the outlying districts during heavy snow falls, although our tractor was purchased in 1925, and while I have kept it in the best possible repair, I would recommend that the voters replace it whenever financial condition will permit.

I completed the construction of Cedar Street to the Hopkinton Town line, a distance of 7,500 feet in length, 20 feet normal width, curved 22 feet to 25 feet in width. This was a Chapter 90 project and was completed within the appropriation allotted for this construction and entirely by local labor.

A section of Medway Street, also a Chapter 90 project, was completed with the exception of a 1,000 feet of shoulder fine grading, which we were forced to let go until Spring, due to the ground freezing. This construction is a distance of 5,300 feet in length, normal width 24 feet, and 30 feet in width on curves. This project was also completed within the appropriation with ample funds remaining to finish the shoulder work.

I recommend that Medway Street be completed in 1936 as a Chapter 90 project, and, also, at least a portion of Purchase Street. I also hope that the voters will be agreeable to have this Department have charge of all Chapter 90 construction in the future.

In my recommendations for the total appropriation for the Highway Department for 1936, I am asking for \$14,500 less than 1935, with the expectation that this department will be granted the construction of the Chapter 90 work.

Respectfully submitted,

EDWARD C. BEAULAC,
Highway Surveyor.

POLICE DEPARTMENT RETIREMENT SYSTEM REPORT

To the Voters of Milford:

Following the adoption of the Pension and Retirement System for the Milford Police Department, the following board was named to administer the system:

Frank A. Bixby

John J. Moloney

B. J. Clancey, Town Treasurer, ex-officio.

This board met and organized with F. A. Bixby as chairman and B. J. Clancey as clerk and treasurer.

The retirement system began operations as of April 1, 1935, under provisions of Chapter 58, Acts of 1935, the system being a joint contributory system by the town and the members of the Police Department.

The board appointed H. A. Garabedian of Boston as actuary for the system and his first valuation and statistical report, and the report of the treasurer are appended hereto.

Respectfully submitted,

F. A. BIXBY, *Chairman,*

J. J. MOLONEY,

B. J. CLANCEY, *Treasurer.*

ACTUARY'S REPORT ON THE VALUATION OF THE ASSETS
AND LIABILITIES CREATED BY THE ACT AS OF
APRIL 1, 1935

December 23, 1935.

*Milford Police Department Retirement Board,
Milford, Massachusetts.
Gentlemen:*

I submit herewith the report on the valuation of the assets and liabilities created by the Milford Police Department Retirement Act and the rates of contributions as required under Sections 14 and 15 of the Act.

The report covers the entire force of the eleven regular police officers who were employed by the town on a full-time basis on April 1, 1935.

Until the first valuation the Act prescribed that the normal contribution should be 3.82% and that the accrued liability contributions should be 5.20% of the regular annual compensation of all members. The rates as determined by the actuarial valuation herein are 2.60% and 2.55% for the normal and accrued liability contributions respectively.

As compared with rates of contributions of other systems covering types of general municipal employees the normal rate of contribution is somewhat high and the

accrued liability contribution is distinctly low. The omission of an assumed withdrawal rate and the inclusion of a high rate of accidental death which is characteristic of the experience of police officers, are contributing factors toward the higher normal contribution rate. The low accrued liability contribution rate is due to the low average duration of prior service since, with but one exception, no regular police service was incurred prior to 1922.

The valuation is based upon the mortality, service and interest tables adopted by the Retirement Board and produces a total present value of all the pension benefits contemplated by the Act on account of these eleven officers with prior service credit amounting to \$19,513.00 as of April 1, 1935. The contributions to the Pension Accumulation Fund required by the Town for the nine-month period from April 1, 1935, to December 31, 1935, as determined by this valuation, are as follows, based upon the annual payroll of \$20,606.00:

Normal Contribution—three-fourths of 2.60 %	
of annual payroll	\$402.00
Accrued Liability Contribution—three-fourths	
of 2.55 % of annual payroll	395.00
	<hr/>
Total—three-fourths of 5.15 % of annual	
payroll	\$797.00

Based upon the rates of contribution prescribed in the Act and including also an appropriation to the Expense Fund the actual total appropriation by the Town for 1935 was \$2,000. Any portion of this appropriation not required for expenses in 1935 should be credited to the Pension Accumulation Fund. The excess of this credit over the total contribution of \$797 as determined by this valuation will serve to shorten the period over which accrued liability contributions will be required.

In any consideration of the financial status of the system from the actuarial viewpoint it must be kept in mind

that for so small an exposure of persons there is little likelihood that actual events will exactly follow the expected contingencies provided for in the underlying assumptions and that such departures from expected results may result in material variations in future valuations of the system.

A statement of the actuarial valuation with amounts of contributions and a list of the eleven officers included in the valuation are appended.

Respectfully submitted,

H. A. GARABEDIAN, *Actuary.*

TOWN ACCOUNTANT'S REPORT

*To the Honorable Board of Selectmen and Voters of
Milford:*

Herewith I submit my annual report of the financial transactions of the Town of Milford for the year ending December 31, 1935.

Included is a detailed report of the receipts from all sources of income, a detailed report of the expenditures of each Department and Account, a Recapitulation and Estimate table showing the Appropriations, Receipts and Transfers, Expenditures, Balance December 31, 1935, and the estimated cost as submitted by each Department for the coming year. Included also is the usual Balance Sheet, a table showing the salaries paid Town Officers and also a detailed summary of the Net Funded or Fixed Debt of the Town.

During the past year the books and accounts of the Town were audited by the State Division of Accounts and were found to be in good order.

I wish at this time to thank all the Departments for their cooperation during the past year.

Respectfully submitted,

MICHAEL J. HANNIGAN,

Town Accountant.

REPORT OF THE BOARD OF HEALTH

To the Citizens of the Town of Milford:

The Board of Health herewith presents its annual report, together with the reports of its various appointees, for the year ending December 31, 1935.

The Board of Health, for the year 1935, consisted of John F. Adams, Chairman; James Cervone and Arthur J. Chambers. Mr. John F. Adams resigned on April 10, 1935. At a joint meeting of the Selectmen and the Board of Health, held April 30, 1935, Mr. J. Curtis Nutter was elected to fill the vacancy as Chairman. Miss Phyllis Moran was appointed Secretary.

The appointments of the Board of Health were as follows: Meat and Provision Inspectors, Dr. Benjamin F. Hartman, Jeremiah Macchi; Sanitary Inspector, Walter Chapin; Plumbing Inspector, John E. Higgiston. At this time Mr. Higgiston was granted an indefinite leave of absence, and Mr. William L. Power was appointed to fill the vacancy. On October 16, 1935, Mr. Charles J. Ferrante was appointed Plumbing Inspector to fill the vacancy caused by Mr. Higgiston's leave of absence. Nurse, Mrs. Anna M. McKenna (Mrs. McKenna passed away on April 10, 1935). On May 2, 1935, Miss Helen M. Murphy was elected as Board of Health Nurse. Physician, Dr. Francis H. Lally; dentists, William J. Clancy and Francis X. Kelley.

In Memory

of

MRS. ANNA M. McKENNA

1929—1935

For over five years
a faithful Board of Health Nurse.

REPORT OF PLUMBING INSPECTOR

During the first three months of 1935, owing to the lack of building, there was no applications for permits to do new work or remodeling, most of the time being put in on investigating and looking after work where no permits were required. On April 1st, your Inspector,

having taken a government position out of town and not being available to put in the time inspecting and also the two hours a day the position calls for to receive and issue permits, asked for and received a leave of absence in accordance with the law.

Mr. William L. Power was appointed acting Inspector for six months, and thereafter did the inspecting until October, when Charles J. Ferrente was appointed Assistant Inspector, and he has taken charge of the inspecting since with the exception of what work he performed, which I took care of without pay.

Respectfully submitted,

JOHN E. HIGGISTON,

Plumbing Inspector.

SANITARY INSPECTOR'S REPORT—1935

To the Honorable Board of Health:

Gentlemen:

Following is the list of contagious diseases placarded, land posted, and complaints:

Measles. Placarding discontinued by State Board.	
Scarlet Fever	3
Infantile Paralysis	2
Complaints	58
Fumigation. Discontinued unless insisted upon.	
Garbage	None
Land Posted	11
Bake Shops inspected	7

One complaint which caused the Board and Inspector much time and trouble, being on Lincoln Street, constituting a public nuisance, was taken to court and party found guilty. Case appealed and taken to Civil Court in Worcester. Jury brought in verdict in favor of Board of Health.

Respectfully submitted,

WALTER H. CHAPIN,

Inspector.

REPORT OF BOARD OF HEALTH NURSE

Milford, Mass., January 18, 1936.

To the Honorable Board of Health:

Gentlemen:

I hereby submit my report as Board of Health Nurse for the year of 1935 (beginning May 3rd).

ST. MARY'S AND SACRED HEART PAROCHIAL SCHOOLS

Medical inspection of the pupils at St. Mary's and Sacred Heart Parochial Schools is provided by the Health Department. This work has been in charge of Dr. Francis H. Lally, our Board of Health Physician.

Total enrollment: 940.

Number of children with teeth defects.....	210
Number of children having teeth corrections.....	153
Number of children with nose and throat defects....	46
Number of children having nose and throat corrections	10
Number of children having defective vision.....	26
(Many of these children we hope to have taken care of through the courtesy of the Lions Club.)	
Number having miscellaneous defects.....	40
Number of home visits	125

COMMUNICABLE DISEASES

The general health of the community as shown by reported contagious diseases has been at a higher level than last year. The incidence of measles, mumps, and whooping cough is less than last year by 14 cases. It is reasonable to assume that in a great many instances due to present economic conditions, a physician was not called when slight cases of these diseases were apparent. In this way no report of case was made to this department.

The following cases of communicable diseases were reported to the department in 1935:

Chicken Pox	36
German Measles	54

Measles	10
Mumps	7
Scarlet Fever	13
Diphtheria	0
Whooping Cough	21
Infantile Paralysis	3
Venereal Diseases	4
Number of Home Visits	96

In contagious diseases requiring placarding a home visit is made, to obtain information regarding source of infection, to give advice in regard to precautions, and investigate the health of other members of the household and see that the children are excluded from school. While the primary object of this visit is the control of contagious diseases, probably even greater benefits come from the opportunities which these visits in the homes afford for teaching healthy living.

CLINICS

Chadwick Clinic:

Report on re-examination of the children in the schools of Milford who are being followed up annually under the State's Ten-year program Chadwick Clinic.

Number of children recommended for re-examination	148
Number of children re-examined	141
Number of children improved	140
Number of children X-rayed	137
Number of children unimproved	1
Number of children tested	19

Toxin Anti-Toxin Clinic:

(For the Immunization against Diphtheria)

Held in Town Hall, November 8th-15th-22nd-29th.

Number of children inoculated 269

Number of children having three inoculations..... 226

Number of children having less than three inoculations 43

It is interesting to note that since the establishment of the Toxin Anti-Toxin Clinic in 1930 four thousand nine hundred and fourteen children have been inoculated and we have had but three reported cases of diphtheria in Milford.

Assisting Dr. Francis H. Lally were Miss Helen Grady, R.N., and District Nurses, Mrs. Mary Naughton, R.N., School Nurse, and Board of Health Nurse. Records were in charge of Mrs. Beatrice Lally.

Milford Tuberculosis Consultation Chest Clinic:

A Consultation Chest Clinic was held the second Wednesday of each month at the Milford Hospital. Dr. Paul Dufault and Dr. Armand Laroche from the Rutland State Sanatorium were the examining physicians, and were assisted by Miss Helen Rielly, State Consultant on Tuberculosis. A complete report on all cases was forwarded to the physicians sending in their patients.

It has been the aim of this department to provide sanatorium care for persons in the early stages of tuberculosis. From an economic standpoint alone, a patient receiving early treatment and checking of the disease will save the community the necessity of providing years of care at a later date. By early diagnosis and isolation of the patient the danger of infecting con-

tacts is materially lessened. With this in view the physicians of Milford and surrounding towns have been advised of the privileges of the Milford Tuberculosis Consulting Chest Clinic where cases may receive physical examination, X-ray and diagnosis free of charge.

The following is a complete report of the Clinic:

TUBERCULOSIS FOLLOW-UP

The vital problem today in preventing Tuberculosis is to trace the source of cases which are known back to the cases which are unknown. Everybody who helps in the effort to have all Tuberculosis cases promptly reported to the Health Department is helping to advance the day when the disease will become so rare and so well controlled that it will cease to be a menace to mankind.

Report of Tuberculosis cases in Milford:

May 1, at this time, extend my sincere thanks and appreciation for the assistance, cooperation, and courtesy extended me by the Local Welfare Department, Miss Helen Grady, R.N., Supervisor and the District Nurses, Mrs. Mary E. Naughton, School Nurse, and the local

physicians, not forgetting the kindness of volunteer workers who have assisted during many clinics without remuneration.

Respectfully submitted,

HELEN M. MURPHY, R.N.,

Board of Health Nurse.

Approved Francis H. Lally, M.D.

REPORT OF THE BOARD OF PUBLIC WELFARE

*To the Honorable Board of Selectmen and the Voters of
Milford:*

The Board of Public Welfare respectfully submits the following report for the year ending December 31, 1935:

In rendering the report for the year of 1935, it will be observed that expenditures have increased from \$82,-940.69, in 1934, to \$97,063.40, in 1935.

This increase in 1935 over the corresponding period of 1934 was due, in part to our Old Age Assistance Department which expended \$7,052.33 more this year than the previous year, and to lack of federal assistance in fuel during the past winter. The lower federal wage which was paid on work relief in comparison with the wage paid at the beginning of the C. W. A., and until the increase of the E. R. A., also necessitated a greater amount of supplementary aid to families where the wage earner was employed on the E. R. A. The gradual increase in the number of more or less unemployable cases, who were along in years of age, and who had exhausted all the resources they had and could not find any employment in industry, brought them almost directly to the Welfare Department for relief.

RECOMMENDATIONS

It is recommended that larger quarters be provided for this department. The efficiency of the department's activities is greatly affected by the inadequate office space, and this has been extremely noticable during the past five years. Working under these cramped conditions seriously handicap the staff, due to the increased amount of relief work.

The ventilation is inadequate, and there is no privacy for interviews, which proves both embarrassing and distressing to those seeking our aid.

The Old Age Assistance Law which became effective July 1, 1931 requires that a separate bureau be established, and this requirement calls for another room which has not been provided for to date.

The quarters needed in normal times are approximately as follows:

1. Private office for Old Aid Assistance Bureau, Board Meetings and General Aid interviews.
2. Main office for records and bookkeeping.
3. Applicant's and general waiting room.

The Board respectfully asks that serious consideration be given to the imperative need of these suitable quarters, to make possible the proper functioning of the department.

In conclusion the Board of Public Welfare, and its Almoner, wish to extend their appreciation to the employers, for their cooperation in the employment of needy persons; the treasurers of the local banks and insurance companies for information given us upon request.

Respectfully submitted,

JAMES L. AHEARN, *Chairman*,

SCHEDULE OF PROPERTY

Two brick buildings and one frame building with necessary equipment; one Amoskeag steam fire engine (in storage); one American La France type 75 Combination pumping engine and hose truck, 750 gallons per minute, fully equipped, one American La France G. M. C. type Combination pumping engine and hose truck, 500 gallons per minute, all equipped; one Maxim Combination pumping engine and hose truck, 600 gallons per minute, fully equipped; one Maxim Ladder Truck, fully equipped; one Ford V-8 Brush Fire Truck, fully equipped for brush fires and used for house fires in winter months; one Ford Hose

Truck, fully equipped (North Purchase) ; one H. & H. Inhalator-Grappling Hooks and all necessary equipment one four-way Morse Deck Gun—Twenty-one Lights, 6500 ft. of first-class hose and 500 ft of second-class hose; one Gupstill Brush Fire Pump and 2000 ft. of brush fire hose and necessary equipment.

FIRE ALARM AND TELEGRAPH

One four-circuit Storage Battery Switchboard, complete with batteries and wiring, thirty-five miles of wire, two turtle gongs—four direct tappers, three indicators, one repeated, one LeBaron Air Whistle and tanks, complete, one transmitter and equipment, one motor generator and 37 Alarm Boxes, one Barry Sound Signal Equipment.

From January 1, 1935 to December 31, 1935, we answered to 244 alarms—42 general alarms and 202 telephone calls, we also rendered service on 8 calls for the inhalator for serious sickness and drownings.

Insurance of Buildings where actual fires occurred	\$161,000.00
Insurance paid on buildings.....	16,846.70
Insurance on contents.....	119,900.00
Insurance paid	22,600.00

The fire that occurred at the Archer Rubber Co. factory added considerable to the amount of the insurance paid on buildings and contents, had it not been for that, this department would have had a very small amount of loss, favorable we believe with losses of any past years.

This year we made a great many needed repairs to the apparatus and buildings, notably, is the WPA project that is now being completed at the South Main St. Station, where we are making the sleeping quarters for the drivers a decent place to sleep, and changing over the bathroom, where we are having installed a new shower

bath and toilet, in place of the antiquated equipment that was installed there, this the board felt was greatly needed, we had the motor in Engine I thoroughly overhauled and the pump in Engine II was taken out and new parts that were worn replaced. This work we feel had to be done in order to save the town a greater expense later on.

The board wish to thank the Board of Selectmen, Police Dept., Highway Dept., the wire inspector and the special police officers for their very fine co-operation throughout the year.

Respectfully submitted,

WILLIAM L. POWER,
THOMAS MANGUSO,
JOSEPH J. FAHEY,

Board of Fire Engineers.

REPORT OF INSPECTOR OF WIRES

To the Honorable Board of Selectmen:

Gentlemen—In rendering the annual report of the Wire Inspection Department, I am glad to state that there is evidence of quite a revival of construction during the year.

Oil burner installations continue to be the leading factor, but building in general is on the increase and three rather extensive jobs, namely, the Peerless Shoe Co., the High School Addition, and the addition and re-equipment at the Milford Hospital added very largely to the business of the year.

Two of these are still under construction.

It has been very gratifying that some of the property in the business section that has changed ownership has had the wiring put in good condition. Some of this property had been getting in poor condition for some time, and for financial reasons could not be overhauled.

I would repeat the warning given many times in the past, to avoid without fail, both cheap and unapproved material and ignorant and unlicensed workmen.

This is important, even in the smallest jobs, as a very small defect may cause a loss of much property, or even life.

Property owners are warned to keep radio antennas away from, or at least below all light and power wires. Neglect of this precaution may cause very serious results.

The wires and structures on the streets and highways are in very good condition except in a few places where they are menaced by trees or privately owned lines, and these conditions are receiving attention.

Respectively submitted,

FRED M. DANIELS,
Inspector of Wires.

REPORT OF THE INSPECTOR OF ANIMALS

To the Honorable Board of Selectmen:

For the past year this town has been practically free from tuberculosis in cattle. There have been no cases reported in the 268 head of cattle examined. Interest in the detection and eradication of Bang's disease (contagious abortion) has increased in the last twelve months due largely to announcement of the Federal government that plans are being made for the allotment of money to the various states for the control of this disease. Massachusetts is cooperating in this movement.

The rabies situation continues to be serious. Milford has had several cases causing anxiety, but none has been fatal to the person involved. Owing to increased interest and cooperation on the part of physicians in reporting dog bites to the Board of Health, more animals are being examined and quarantined yearly.

It is hard to explain the lack of interest on the part of dog owners in preventing a disease so dangerous to public safety and health and a disease which invariably terminates fatally.

In many Massachusetts cities and towns clinics are held for the purpose of giving a preventive treatment to dogs. Dog owners are asked to pay only a small fee for the service.

There has been a notable increase in the number of swine being kept in this community in the past year, but no outbreaks of contagious diseases have been reported among them.

Respectfully submitted,

DR. B. F. HARTMAN.

REPORT OF THE PARK COMMISSIONERS

To the Citizens of the Town of Milford:

We hereby submit our annual report for the year 1935.

This year we hired several extra men for a period of ten days early in the spring and gave all four parks a thorough raking and cleaning. This work was badly needed, especially on Town Park where E. R. A. had left the grounds in a very untidy condition. The area near the tennis courts presents a problem of daily cleaning up of papers which we attended to this year. This in itself was an innovation.

E. R. A. gave us the home base bleachers in 1934, which in 1935 cost us considerable for labor and paint. We gave them two coats.

We regret the unfinished condition of the dugouts on the ball diamond. Possibly 1936 will see them completed.

Due to a wet summer the tennis courts remained in good condition all season. Had it been dry sprinkling of the courts would have been impossible due to the corroded condition of the water main into the park. This pipe, many, many years old, must be replaced in 1936, and a branch line run handier to the three new tennis courts.

The past spring brought out clearly the change in drainage demands on Town Park due to the new tennis courts. Washouts on the Emmons street walk and the ball diamond perpetually cost the Town money. A proper drain from back of the drinking fountain to the brook should be installed. It is hoped special appropriations may be had for the latter two items.

Cementing of the Emmons street walk from the comfort station to the new High School would help, but until the water causing all the trouble is properly cared for

there is little use trying to repair this walk or its environs. We know this area is in a deplorable condition.

We eliminated the matron from the comfort station leaving its care to the man always on duty in Town Park and found this a satisfactory economical way to handle its care.

We managed with two regular men all season and did a fair job of keeping grass cut on Town Park, Bancroft Park, Draper Park and Calzone Park in spite of frequent breakdowns of our power mower and a season ideal for the growth of grass. The power mower cost too much for repairs and we intend to buy a new one in 1936.

We made the first serious attempt to get turf on the football field by fertilizing and seeding it and then eliminating actual football playing on it. The coming season will tell us the wisdom of our ways.

PLAYGROUNDS DIVISION

We installed the new playground voted at the March Town Meeting in the Hoboken district, at the Hoboken school yard. After allowing for supervision expenses we managed to set up a comparatively good set of apparatus. Reports from this area prove it to be a good investment and with the purchase of a slide in 1936 this playground will be equal to any in equipment and better than some in appreciation of its equipment by the children.

The equipment for the other three playgrounds, most of which is very old, was in a bad state of repair. We felt that if the Town is to have playgrounds it should at least keep the apparatus in repair. We bought some new swings and considerable odd small repair parts and put everything in good shape to start the season. We wish to report the close of the season found it all still in good condition. With a small expenditure to improve the equipment in 1936 and the same efficiency in the corps of supervisors that we had this year the Town and the children will each profit thereby.

If we can supply the Oliver street Playground with seesaws all three grounds will then have about the same amount of equipment.

It is our policy to keep playground apparatus down to the simple things and in repair. We want to give the children in Milford all the supervision possible with the funds and hope to continue to find such able, conscientious supervisors as we have had heretofore. This year we had a trained athletic coach in charge of baseball on Town Park. This not only took baseball off the streets and back lots but gave those boys who could not make High School or Legion teams some advantages never before experienced. We hope to continue to advance our supervision of these four playgrounds in similar manner. It is to be regretted that three of the playground areas are rather small.

We take this opportunity to thank all who in any way assisted us during the past year.

Respectfully submitted,

FRED W. CLARRIDGE, *Chairman*,
SIMON P. HICKEY,
PATRICK J. CARROLL.

REPORT OF THE SEWERAGE COMMISSIONERS

To the Citizens of Milford:

The Sewer Commission present for your consideration the following report for the year ending December 31, 1935. As in the immediately preceding reports a detailed financial statement will be omitted and for this information you are respectfully referred to the Town Accountant's report printed herein under a separate heading.

During the year 1935 no main or lateral sewer construction was undertaken, sixteen (16) additional house connections were made, however, making the total number of house connections to date eighteen hundred thirty-four (1,834).

The usual maintenance of the system of sewers and treatment works was carried forward during the year and considerable extra work was done principally in the painting of the pumping station wood work at the Medway Road and Charles Street stations.

All the buildings at the treatment plant were painted and a new shingle roof was constructed on the plant tool house, together with the repair of the hips of the dosing tank superstructure at the sand filter area. New doors were hung at the tool house and the sand filter dosing tank building and all outside piping, railings, etc., at the Imhoff Trickler plant were cleaned and painted. New sand was placed on the surface of the trickler plant sludge beds also.

Approval of the construction of additional treatment works, required by the State Department of Health, based on the report and plans of our consulting engineer, Mr. F. A. Barbour, was received from the State Health Department and an E. R. A. project for the preliminary surface grading and excavation was made and received approval by the authorities—in February the E. R. A.

work was started and carried forward with reasonable success until June when, it appeared that approval of the construction of the complete works under a Federal P. W. A. grant-financed project could be secured, a forty-five per cent grant was offered by the Government and accepted by the Town and plans were made to go forward on this basis.

Your Commission instructed its consulting engineer to prepare complete plans and specifications for the proposed construction, and after securing approval of the P. W. A. authorities bids were called for covering the furnishing of materials and construction of the additional treatment works.

Bids were received on October 29, 1935, and all seven contracts were awarded to the low bidders except Contract 4 (gate valves) and Contract 6 (general construction), these two contracts being awarded to the second low bidders as being in the best interest of the Town.

Approval of the contract awards was received from the P. W. A. authorities and the Commission signed all contracts on December 14, 1935—work was actually started on the construction of the additional works on December 16, 1935, and has progressed rapidly to date, excavation for the secondary tank unit being completed and the first concrete was placed previous to December 31, 1935.

The general contract for the construction calls for the completion of the entire works on or before September 14, 1936. Present indications point to a much earlier date of completion and the Town will be in a position to adequately meet the requirements of the State Department of Health early in the summer of the year 1936.

Respectfully submitted,

ALFRED F. MARTIN,

ERNEST E. O'BRIEN,

FRED L. ROBERTI, *Chairman,*

Sewer Commissioners.

In Memoriam

The death of Doctor Thomas J. Nugent on June 27, 1935, brought to a close a life devoted to the best interests of the Milford Town Library. Under his guidance as Chairman of the Trustees, the library enjoyed steady growth and influence. He was always keenly concerned with all the activities of the library, giving generously on all occasions, his wise counsel and encouragement. In grateful acknowledgment of his loyalty and service, we, the Members of the Board of Trustees of the Milford Town Library wish to spread on our records this expression of our appreciation.

January 11th, 1936.

Attest: Frederick H. Gould, Secretary.

MILFORD TOWN LIBRARY

REPORT OF LIBRARY TRUSTEES

The Trustees of the Town Library submit the following Report for the year 1935:—

On June 27, 1935, the Board of Trustees suffered a great loss in the death of its Chairman, Dr. Thomas J. Nugent. Dr. Nugent had been a member of the Board and its chairman since June 2, 1924. Always a gentleman, with the good of the Library at heart, his loss to the Board and to the Town is a matter of the deepest regret.

At a meeting of the Trustees at a later date, Captain Gilbert C. Eastman was elected Chairman of the Board and is at present serving in that capacity.

The vacancy caused by Dr. Nugent's death was filled at a joint meeting of the Board of Selectmen and The Board of Trustees of the Library, when Mr. R. Lloyd Dillon was chosen a member of the Board of Trustees.

The Board would call attention to the Circulation Report of the Librarian with a total of 77,330 volumes for the year, a gain of 2,619 volumes over the preceding year. For the books presented to the Library, as outlined in the Librarian's Report, the Board extends their sincere thanks.

During the year a telephone has been installed in the library, which has been found to be a great addition to the service the library staff is endeavoring to give the public.

The Board realizes that the keyword is economy, yet they feel that no department of the town gives any more real pleasure and profit to the general public than our Library and it is hoped that our appropriation may be as liberal as possible.

The Library some years ago adopted the open stacks and in view of the vast increase in circulation in recent years the Board feels that this was a wise move. Under the old system it would be physically impossible to cope

with the present circulation with the same personnel as at present.

Attention is called to the fact that our per capita income was only \$.35 when for our Class it should be \$1.00.

In connection with the open stacks it is the hope of your board at some future time to install more modern equipment in place of some of the original stacks which still remain. This we are unable to do from our present appropriation.

A careful reading of the Report of the Librarian is advised so that everyone may be made familiar with the problems which confront the Board.

To the Librarian and members of her staff the Board extend their thanks and appreciation for their willingness and hearty coöperation.

Respectfully submitted,
CAPT. GILBERT C. EASTMAN,
Chairman.

To the Trustees of the Town Library:

Gentlemen:

I submit herewith the seventy-seventh annual report of the Library for the year ending December 31, 1935.

This year shows a gain in circulation over that of 1934. The larger number of new books purchased accounts for the greater part of the gain. The juvenile department is still very weak and the technical department needs more books. With an increased appropriation all departments could be brought nearer to standard. A children's room is the outstanding need of the Library. Such an addition would solve the problem of service and space.

CIRCULATION

The Library was open 303 days, and during that time 77,330 volumes were loaned, a gain of 2,619 over the circulation of 74,711 volumes in 1934. The circulation by departments was: History, 283 (loss); Biography, 1,197 (gain); Politics and Law, 46 (gain); Travel, 1,231 (gain); Science, 721 (gain); Fiction, 44,229 (gain); Magazines and Miscellaneous, 4,277 (gain); religion, 99 (gain); Poetry, 606 (loss); Juvenile, 24,637 (gain); Public Documents, 4 (gain).

The largest daily circulation was February 25, with 627 volumes. The smallest daily circulation was April 9, with 31 volumes. The average daily circulation was 255.2 volumes. The average circulation per capita was 5 plus volumes, a very low average. The per capita income was 35 cents, the lowest per capita income of any library in our division. The per capita income should be one dollar (\$1.00).

Notices sent delinquents, 456. This applies only to first notices. Patrons registered during the year, 650; total registration, 3,570. Visitors to reading room, 8,165, as against 7,945 last year, a gain of 220.

Amount collected for fines and paid to the Town Treasurer, according to State law, \$168.31.

In addition to the donors listed, additional gifts, not catalogued but placed on the shelves for the use of the public, were made by Edith Hill, John Smith, Helen Gas-kill, Mildred DeCoste, Rose Prece, Mrs. Mabel Freeman, Mrs. James Sails, Mrs. J. G. Beveridge, Miss Nettie Day, Miss Helen Colburn Heath, Miss Dorothy O'Brien, Clifton Tyler, Earl Crowell, Miss Williams and Mrs. Hussey. The Librarian has donated the Milford Daily News for binding, use of the Boston Herald, and a four year's subscription to the Standard Catalog for Public Libraries.

SCHOOLS

Pupils of the Stacy School were supplied with books for the silent reading period, as in previous years. The prizes for book reports, awarded by the committee consisting of Mrs. Margaret Lewis, Mrs. Frances Chadbourne, Mrs. Irma Whitney, were presented to the winners by the Librarian at the Memorial Day exercises in Town Hall. The first prize, three dollars, donated by the principal of Stacy School, was awarded to Paul Swanson, Grade 8, Room 5, for his review of "Smoky, the Range Horse." The second prize, two dollars, donated by the Librarian, was awarded to Anita Marcus, Grade 8, Room 13, for her review of "The Secret Garden." The third prize, one dollar, donated by the Librarian, was awarded to Winifred Kiessling, Grade 8, Room 9, for her review of "Little Women." Honorable mention for good reviews was given Paul Swanson, Grade 8, Room 5, for review of "Silver Chief"; Miriam Bullard, Grade 7, Room 11, for review of "Hoosier School Boy;" Clayton Wilson, Grade 7, Room 11, for review of "Flying the U. S. Mail to South America;" Claire Morgan, Grade 7, Room 7, for review of "A Little Maid of Vermont"; Marjorie Jackson, Grade 8, Room 5, for review of "Freckles"; Margaret Scott, Grade 8, Room 10, for review of "Girl of the Limberlost"; Regina Calitri, Grade 7, Room 1, for review of "Dande-

lion Cottage"; Mary Rogers, Grade 8, Room 12, for review of "Little Men"; Athens Coniaris, Grade 8, Room 3, for review of "The Perfect Tribute"; Alfred Guidotti, Grade 7, Room 7, for review of "Talks About Our Country"; Anna May, Grade 8, Room 13, for review of "The Perfect Tribute."

Again this summer the "Travel by Books" trips were formed, thirty-four boys and girls reading from Claflin, South Grammar, Park, Plains Grammar, Spruce, Stacy and St. Mary's Schools. The same procedure was followed this year as last (using maps and stickers), with the exception that fourteen books instead of eight were read to complete the trip.

All the written reports on the books were so good that the library staff felt well repaid for the time and work put into it. Many of the readers took the "Travel Trip" last year.

The following took the trip:—

Grade Four—Leola Burns, Mildred Nelson.

Grade Five—Josephine DePasquale, Alfred Pantano, Leo Harlow, Florence Cogliandro, Congetta Carrabba, Doris Williams,, Garnet Flinn, Serponhy DerBedrosian, Gail Carter, Eleanor Laronga, Dora Ferrucci, Dorothy Hynes, Robert Lynch, Julia Porzio, Barbara Sails, Danny Villani, Irving D. Smith, John Holmes, Jr., John Manuel, Rose DiFonzo, Isabelle B. Cooper, Virginia Coffin, and Arlene D. Reynolds.

Grade Six—Anita Speroni, Richard Canon, Priscilla Jones, Rita Pessotti, James Burns, Jean-Marie Lancisi, Barbetta Hartman, Nicholas Tosches and Edith Celley.

PUBLICITY

The publicity work requested by the A.L.A. was continued during the year. There were exhibited appropriate posters for the various seasons; a remarkable boat made by George Wolfe; special exhibits in connection with the showing at the State Theatre of Little Minister and David Copperfield; valentines made by the pupils of the first six grades loaned by Miss Condon; books on Ire-

land; Lenten Reading; books on noted events of the year; garden, vacation and guide books; scenes from well-known books for Annual Book Week; closing the year with an exhibit of new books, the Manger Scene, wreaths and a lighted Christmas tree.

NOTES

The Library Staff mourns the loss of Dr. Thomas J. Nugent, chairman of the Board of Trustees. They have lost a friend and an ardent advocate of advancing the efficiency of the service of the library.

Two sets of Italian, Polish and Armenian books were borrowed from the Division of Public Libraries. The circulation of these books was good, showing the need of such material.

In September, the girls of the Vocational classes, with their teacher, Miss Apicella, made two visits to the Library. They were shown how to use and enjoy the privileges of the Library.

Troop 6, Algonquin Council, presented "Handbook for Boys" to replace one that was lost. The troop also presented the official publication of the Council, the Algonquin Trail.

Miss Helen Colburn Heath presented to the Library a book case with 135 books owned by her uncle, Mr. Lucius E. Heath. This collection will be known as the Lucius E. Heath Memorial, and will be designated by a suitable book plate.

Miss Anna Ford presented a set of plates showing the work of Carl E. Akeley in taxidermy and sculpture, owned by the Field Museum of Natural History, Chicago, Illinois.

WORCESTER MEETING

On November 2nd the Assistant Librarian attended a meeting at the Worcester Historical Society Building, Worcester, in response to a circular letter received at the library for a representative from the library, the purpose of the meeting being to form a Worcester County Historical Society. About one hundred attended.

The meeting was called to order and the purpose outlined by Mr. Linwood Erskine, President of the Worcester Historical Society. After formal addresses the meeting was open for the discussion of ideas, ways and means to interest the general public in the historical societies in towns which now have such a society and forming one in towns where there are none at the present time.

A committee of five was named from the floor to draw up plans, Dr. Albert Farnsworth being elected chairman. Professor Coombs of Worcester, A. C. Harrington of Fitchburg, Mrs. Roy C. Baker of Clinton and Charles Carroll of Rutland were the other members of this committee.

Great stress was laid on the preserving of historical things such as genealogy, town records, accounts of earlier settling of the towns, names of men and women who had been influential in helping the town; also on co-operation, and the suggestion was made that if a Historical Society or a library had a document or anything of value of another town it should be sent to that town for its records.

Mapping out of cemeteries for recording as being helpful in genealogy, taking of moving pictures of buildings, streets, stores and town meetings to be shown every twenty years, that the coming generation might see the town as it was in its earlier days, was suggested.

The Library Staff co-operated with the English teachers of the high school in the preparation of a supplementary reading list for the freshman, sophomore, junior and senior classes.

Book marks and "Planned Reading" are received regularly from the National Library Advertisers, Inc., Peoria, Illinois.

The entire staff, Librarian and three assistants attended the meeting of the Bay Path Club in Westboro.

A much needed telephone was installed—call number 771-W.

Thanking the Honorable Board of Selectmen and the public for the assistance given me during my term as Sealer of Weights and Measures,

I am, respectfully,

DANIEL M. O'BRIEN,
Sealer of Weights and Measures.

TOWN SOLICITOR'S REPORT

Four of the ten damage suits which were pending against the Town January 1, 1935, were reached for trial during the year and settled. These four accidents happened in 1931. There were pending on January 1, 1936, eight damage suits, as compared with ten a year ago. Three new actions were started in 1935, of which one was disposed of. Eight other claims, which arose in 1934 and 1935, were settled without suit.

During the year 1935, 289 descriptions of property to be taken for unpaid taxes, were prepared at the request of the Tax Collector, as compared with 418 in 1934 and 569 in 1933. Only 25 titles were actually taken, as compared with 43 in 1934 and 145 in 1933. In other words, there were 129 less notices of taking prepared in 1935 than in 1934 and 18 fewer titles actually taken.

As has been before observed in previous Reports, liberal provision is provided by which the taking may be released by the taxpayer. During 1935, 70 previous takings were released or disclaimed with the approval of the Tax Commissioner. This shows that almost three times as many parcels were redeemed as were taken. But one petition to foreclose a tax title was filed. This case was adjusted with the approval of the Tax Commissioner, by the payment of a substantial sum of money to the Town, including costs.

The Solicitor has prepared and filed all the applications for proposed P. W. A. work, has appeared before the Boards having charge of the same, attended numerous conferences and taken part in many consultations regarding them, both in and out of town. The P. W. A. projects approved by the Federal Government in 1935 were furnishings to the new High School and the Imhoff Trickler Unit at the Sewer Beds; Sidewalks, and Cedar Swamp Pond-Athletic Field being reapplied for under W. P. A. as stated in the Selectmen's Report.

Litigation has arisen over the letting of the contract for the construction of the Sewer Project. The lowest bidder was A. Daddario who, in common with all other bidders, deposited \$5,000.00 as security, if successful, for the execution of the contract. Daddario was awarded the contract but has brought an equity suit against the Town for the return of the \$5,000.00 on the ground that he was justified in refusing to accept it. The P. W. A. notified the Sewer Commission that if they returned the check voluntarily, the amount would be deducted from the account, which would result in the Town having to make it up out of its own funds. If the Town is forced to return it by Court order it is probable that the P. W. A. will revise that ruling. This action is still pending in Suffolk County Superior Court.

A list of all the W. P. A. projects approved may be found in the Administrator's Report, and the status of the Cedar Swamp Pond-Athletic Field Project is given in the Report of the Selectmen.

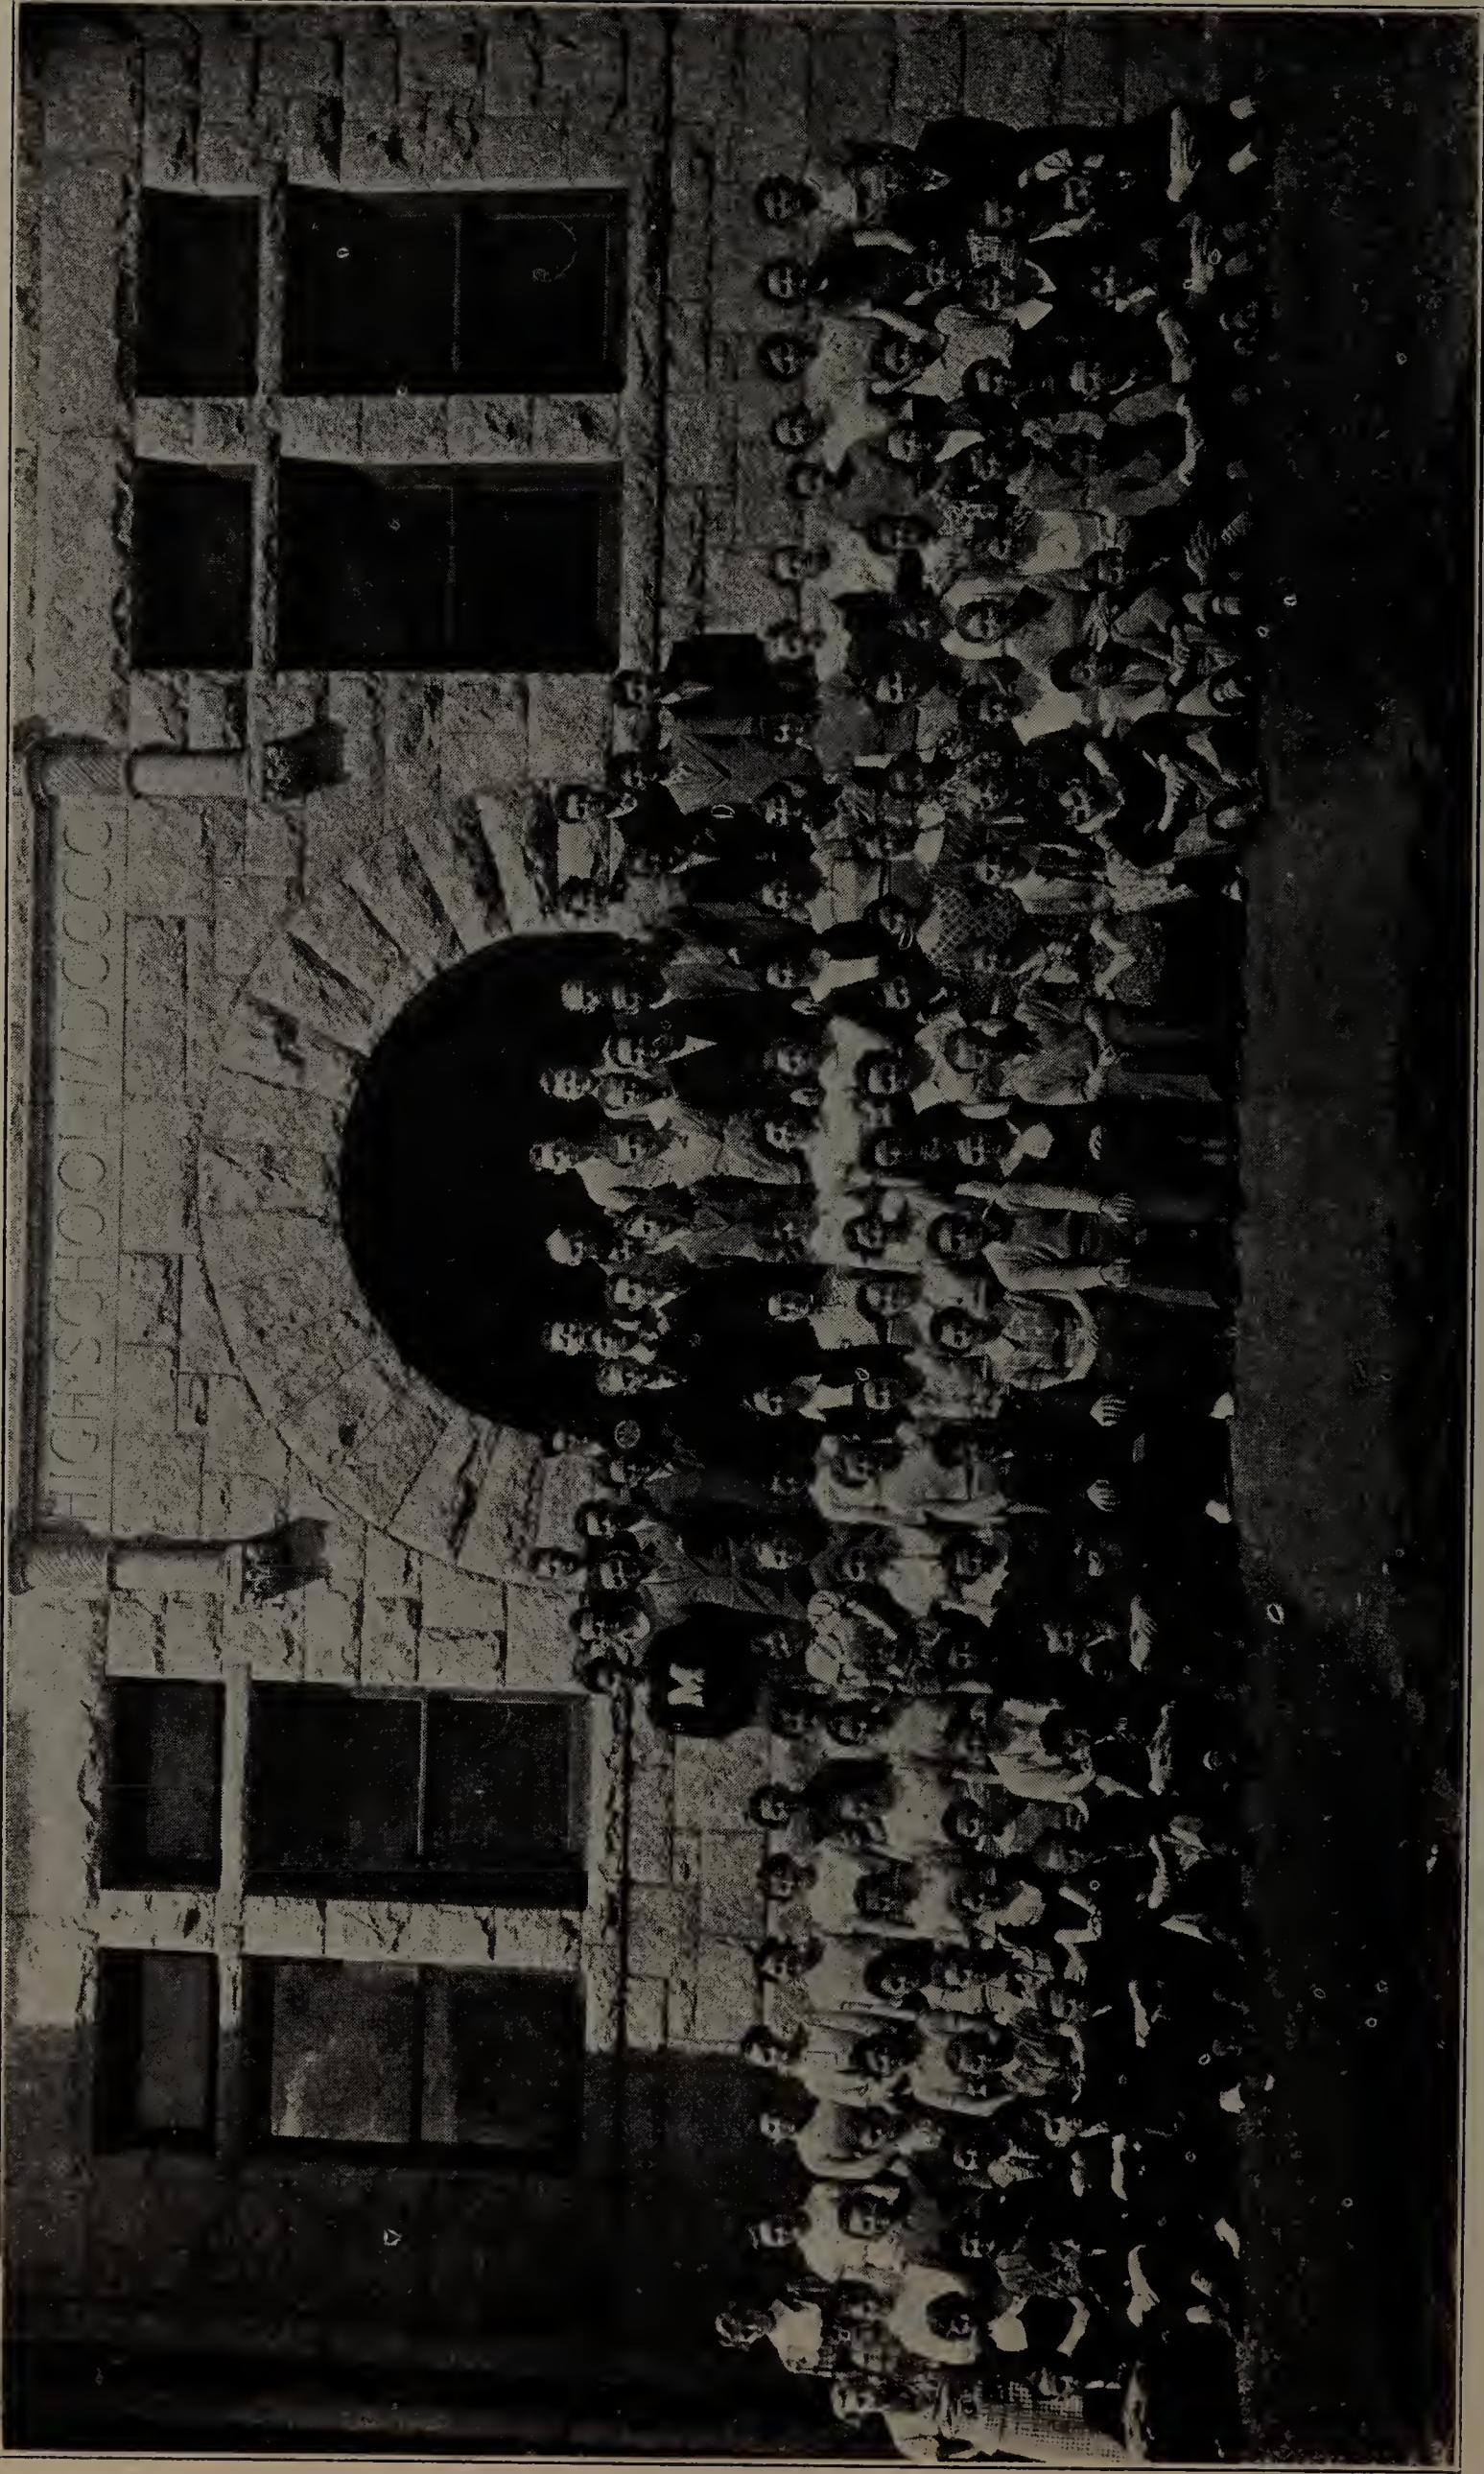

The Solicitor has furnished advice and given numerous opinions to the various Town Departments; has brought many suits for the Board of Public Welfare against towns and cities for aid furnished; and has appeared before the Emergency Finance Board at all hearings on the Budget and on other matters coming within their jurisdiction.

Space will not permit, nor does necessity require, a further statement of the multiplicity of matters that this Department has handled during the year in connection with the many municipal problems that have arisen; but in carrying them out, the task has been lightened by the cooperation and willing response of the Departments affected.

Respectfully submitted,

WILLIAM A. MURRAY,
Town Solicitor.

A Tribute from the School Committee
of Milford, Massachusetts

In the Home—A sunny, happy child, radiating
helpfulness.

At School and College—To her teachers, an
earnest, successful, co-operative student.
To her classmates, a merry-hearted, smil-
ing girl.

In the Church—The loyal, devoted Christian
Woman.

In Milford's Schools, for nearly twenty years a
teacher,

To the children, the wise, firm leader,
counsellor, and friend.

To her associates, straightforward, sincere,
dependable always.

In the latter years, walking her appointed road
with firm step and high courage, her house in
order, making no sign, serene, patient to the end.
For her the journey through the valley toward
the light divine, the promised life and the sure
reward.

For those who loved her, precious memories.
To those who follow her in the broken home,
the great heritage of mother love, strong and
tender, and mother training firm, true and
patient, builded into their lives, of high pur-
poses outlined, and characters shaped and or-
dered to the coming years.

REPORT OF THE SCHOOL COMMITTEE

The careful consideration of the following report by the citizens of Milford is earnestly invited.

Those in special and immediate charge of the health of the school children, as well as the teachers in the schools, have been alert during the year. Dr. French retires as School Physician, after a long and worthy service.

The High School addition is nearing completion, and is eagerly awaited by faculty, students and parents alike.

A number of projects recommended a year ago have been realized, and others are under way. An educational project new to us, and one likely to prove interesting and valuable, is the W. P. A. Nursery School.

The following, regular and special, is asked for 1936:

REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the Honorable School Committee of the Town of
Milford:*

Gentlemen I herewith present my 25th annual report,
the 57th of such reports in Milford.

PLATOONS

The end of platoons in Milford is in sight. As remarked in these pages a year ago, it is planned to take down, repair and re-erect the High School portables in the Oliver Street School yard where, in addition to the regular daily use, they may serve as polling places for Ward 4.

Gifts During the Year

FROM THE LIONS CLUB

A great President said of a distinguished jurist of Massachusetts that he not only knew the right thing to be done but had the power to set it forward. This is a fitting tribute to the local Lions Club. During the present fall and winter season, the Lions took up the cause of the many school children in Milford needing eyeglasses and conducted a campaign which came to a triumphant conclusion at the State Theatre, Monday evening, January 27, 1936, when, in connection with a splendid entertainment, it was announced that the Club's efforts were crowned with a fund of over \$900.00. It is a rare pleasure to extend to the Milford Lions Club an expression of gratitude and appreciation on behalf of the School Department and of the direct beneficiaries who were not forgotten, for this timely and vital help to the children of Milford.

High School: From the Class of 1910, a fine portrait of former Principal Thomas J. Quirk, presented at the Alumni Reunion in June.

Purchase Street School: A silk flag given to Miss King's room by the W. R. C.

DR. FRENCH

At the close of 1935, Dr. John Marshall French, a school physician since 1907, presented his resignation and retired to a well-earned rest. The period covered by Dr. French's services has seen the marked advance in corrective, remedial and preventive measures, and the striking improvement in the percentage of normals, that was the subject of special comment in these pages one year ago. For nearly three decades, Dr. French passed in and out of our school rooms, positive, definite, straightforward, in his appointed tasks, in kindly and understanding coöperation with his colleagues, for the well-being of the children. He retires well beloved and will be long remembered.

The School Committee passed the following resolution upon Dr. French's retirement:

"Voted:—That the resignation of Dr. French be accepted, and that the Secretary be instructed to convey to Dr. French the Committee's sense of appreciation of his long, faithful, enthusiastic and effective service as a school physician, and the fine spirit of cooperation with his colleague in promoting the health of the children of the public schools, and their regret at the severance of relations. The members of the Committee wish for this true teacher and faithful physician the benediction of the Perfect Teacher and Healer Divine, in the midst of loyal friends, through serene and cloudless days."

At a meeting of the School Board held Saturday, January 18, 1936, Dr. Francis H. Lally was elected a School Physician, succeeding Dr. French.

CHANGES IN TEACHERS

HIGH SCHOOL—LEFT THE SERVICE

Miss Elizabeth A. Doyle, a successful teacher since 1923, left the service to become Mrs. James Neilan.

Miss Claire McGowan, in the High School since 1930,

resigned at the end of the school year to become Mrs. Daniel Simon.

Miss Inez E. SanClemente, a teacher in the High School since 1928, resigned during the fall term to become Mrs. David I. Davoren.

ENTERED THE SERVICE

Mr. Benjamin F. Consoletti, Millford High School 1926, B.S., Norwich University 1933.

Miss Claire Lynch, Milford High School 1930, A.B., Regis College 1934.

Mr. Philip O'Donnell, Milford High School 1927, A.B., Boston College 1932.

Miss Ida Kurlansky, part-time teacher in commercial branches for the past two years, was this year made a full-time teacher.

Miss Martha Molinari, Milford High School 1931, B.A.L., Boston University 1935, is a part-time teacher of Italian.

Mr. Ben C. Lancisi, Jr., engaged last fall to teach instrumental music in the middle and upper grades, has charge of the High School orchestra.

JOHN L. DAVOREN

At the close of the fall term, Mr. John L. Davoren, principal of the George E. Stacy School since September, 1928, resigned to take a much more responsible position with the State Department of Education.

Mr. Davoren entered the service of the School Department nine years ago with excellent training, to which he added steadily during his years of service by graduate courses in education in university and law school. He was the author of the tenure bill that bears his name and fought valiantly until it became law. Mr. Davoren has a wide circle of friends in whose cause he showed a friendly and helpful interest, who will be very glad of his promotion to a responsible position in the Department of Education.

The School Committee of Milford, upon receiving Mr. Davoren's resignation, voted: "That Mr. Davoren's resignation be accepted and that the Secretary be directed to convey to him the Committee's feeling of regret at the termination of the professional relations enjoyed by them and the retiring principal in common; their sincere congratulations of Mr. Davoren upon the larger field opening to him; the Board's keen sense of the aggressive professional spirit shown by the retiring principal in constantly seeking to broaden and deepen his own training, and the advancement of the George E. Stacy School under his stimulating leadership."

Mr. Davoren is now Director of the Teachers' Placement Bureau in the Department of Education.

MRS. HELEN KILEY BIRD

In May, Mrs. Helen Kiley Bird, teacher in the Milford schools since 1915, passed away very suddenly. At the time of her death Mrs. Bird was teaching in the George E. Stacy School. The Milford Teachers Association took special note of the occasion in a set of resolutions. The School Committee did likewise (see Page 3).

Miss Irene SanClemente, teacher in the Bear Hill School since 1933, resigned in May, 1935, to become Mrs. Victor Oliver.

ENTERED THE SERVICE

Miss Mildred C. O'Brien, St. Mary's High School 1926, Post-Graduate Milford High School 1927, Framingham Normal School 1929, assigned to George E. Stacy School.

Mrs. Helen Maxfield re-entered the service at the beginning of the school year and was assigned to the Bear Hill School.

Mr. Paul F. Raftery, St. Mary's High School 1931, A.B. Boston College 1935, was elected, to take effect at the beginning of the school year in September, as teacher of academic work for the boys' vocational class.

At the same time, Mr. Samuel Anastasia of Dorchester was elected to have charge of the boys' vocational shop.

NEW PRINCIPAL OF THE STACY SCHOOL

As noted above, Mr. David I. Davoren, St. Mary's Academy 1926, A.B. Holy Cross College 1930, severed his connection with the faculty of the High School to become Principal of the George E. Stacy Junior High School, succeeding Mr. John L. Davoren, resigned.

TRANSFERS

Mr. David I. Davoren, as noted above.

Miss Grace Brown, from Grade 5, Claflin School, to Stacy School, Grade 7.

Miss Mildred C. O'Brien, from Stacy School, to Grade 5, Claflin School.

MILFORD HIGH SCHOOL

A brief report of the Milford High School during the year under review by Principal Frank C. Berry follows:

Milford High School opened in September, 1935, with the largest enrollment in the history of the school. The membership reached the high total of 789. There were 776 undergraduates and 13 post-graduates.

First year students	263
Second year students	191
Third year students	190
Fourth year students	132
Post-graduates	13

It is no longer necessary to mention the crowded conditions of our present building since the new addition should be ready for occupancy before many months pass. It will be a most welcome change for all concerned. Present indications point to a building of which the Town may be justly proud.

I would like to emphasize again my recommendation concerning the selection of courses by the students. Any child who shows scholastic ability should prepare himself for future schooling. It is a sad thing to find a boy or girl in the last year suddenly waking up to the fact that the course chosen does not fit him or her for the work planned. Parents should seek advice and help from the

school authorities, who are not only willing but anxious to help at all times.

EXTRA-CURRICULAR WORK

Junior Science Club, supervised by Mr. Fred A. Metcalf, organized again this year. This makes the sixth year of its existence. The purpose is to promote an interest in science and to provide a wider opportunity for consideration of many things that the class room will not permit.

David Garrick Club, supervised by Miss Sadie A. O'Connell, organized again this year. The purpose of this club is to develop a greater enjoyment and appreciation of good plays along with an understanding of some of the many things that must be done in preparation for the promotion of a play.

The Dante Club, under the supervision of Mr. James V. Zurlo with the assistance of Miss Martha Molinari, organized for its third year. The purpose of this club is to promote interest in the Italian language, life and art outside the class room.

The High School Orchestra organized again this year, with Mr. Ben C. Lancisi, Jr., now a member of our faculty, in charge.

GIFTS

In June, at the Alumni Reunion, the Class of 1910 presented the High School with a beautiful portrait of Mr. Thomas J. Quirk, former principal of Milford High and a distinguished member of this class.

Principal Berry expresses his thanks to the members of the Milford School Committee, the Superintendent and the faculty of the High School for encouragement and coöperation during the year.

GENERAL VOCATIONAL SCHOOL

Late in the summer of 1935, a boys' class was instituted in the general vocational school and men teachers provided for both the academic and shop work. As noted elsewhere, Mr. Paul F. Raftery of Milford was elected

to give the academic instruction and Mr. Samuel Anastasia of Dorchester, suggested by the Department of Education, Vocational Section, as one of the best qualified men on their list, was elected to conduct the shop work. The shop is in the quarters formerly occupied by the boys' continuation school. Here a variety of the rudiments of trades is taught, actual work is done and that very well, and real products made by the boys in a workmanlike manner are creditably produced. At present, the entire salary of the shop instructor is paid directly by the State Department from the George Ellzey Fund. There is an Advisory Board to consult with the Superintendent, Principal David I. Davoren, the Director, and the vocational teachers. This Board is made up as follows: Messrs. William Callahan, Patrick L. Lally, Walter R. Vitalini, Webster S. Gould, and Mrs. Mary H. Sherburne.

GIRLS' CONTINUATION SCHOOL

The Girls' Continuation School opened for the fall term September twelfth, 1935. The first week eighteen girls between the ages of fourteen and sixteen registered. There was the usual increase for a few weeks.

The courses for these girls include related academic work and household arts subjects. The academic work has a direct bearing on the household arts work, for instance, in arithmetic, the girls figure out grocery bills, halve and quarter recipes, etc.

This year, through the kindness and coöperation of Mrs. Mary Naughton, school nurse, the girls are to receive instructions on home hygiene and care of the sick.

We feel sure the girls will benefit greatly from such a course.

RED CROSS COURSE

The objectives of the Home Hygiene Course which we have just completed are:

1st—To give pupils an opportunity to learn the prin-

ciples of health so that they may understand the reasons for the health habits that may have been or should be established.

- 2nd—To teach the fundamental relationship between individual health and the cleanliness, sanitation and arrangement of the home.
- 3rd—To teach girls and boys how to meet the many normal problems of the home, such as the care of the baby, the pre-school and school child, and the care of the aged.
- 4th—To relieve the student's mind of many false fears and superstitions regarding health and to give in their place a sense of security, based upon knowledge of how sickness is caused and how it may be prevented and controlled.
- 5th—To develop some manual skill in the care of the sick in order that common illnesses may be cared for in the home under the direction of a physician.
- 6th—To develop understanding of and interest in school and community health in order that the students, as far as they are able may take a part in the solutions of these problems, thus inculcating civic responsibilities.

An objective optimistic attitude toward life is stimulated and the student's relationship with his fellows in home, school and community is improved.

An appreciation of the allied professions may be aroused as a means of suggesting a vocation to the pupils.

This course was given for the first time in Milford a year ago, beginning in January. A fine class of 32 graduated in June and from the outlines of the course given above and the showing made by the first class, it should be one of the most valuable experiences in the school life of any girls taking the course.

COOPERATING ACTIVITIES

4-H CLUB

Thirteen girls' club members and one boy's club member exhibited at the 4-H Club exhibit, June 7, 1935.

Over three hundred twenty-five articles were exhibited by the home-craft, sewing, and cooking clubs. Over fifty articles were exhibited by the boys' club in handicraft. These clubs were under the direction of sixteen junior and senior leaders. Five girls received their national pins. Two girls received the honor of representing Massachusetts at State Camp and one of the same girls received a trip to the 4-H Congress in Chicago.

(Account of Mrs. Elmer Rose, Town Director.)

THRIFT SAVINGS

Under the courteous and untiring leadership of the Milford Savings Bank the school children saved the sum of \$10,377.29 during the year, nearly up to the record of the year previous. This is, in the opinion of the writer, one of the most valuable projects we have.

PHYSICAL TRAINING

Beginning with the new year of 1935, a posture club was formed among the grade school students. As each pupil attained sufficient excellence of posture, his or her name was taken by the Director, and inserted in the local newspaper; at the same time it was printed with gold crayon upon the blackboard in the room. The emphasis upon good posture was quickly noticeable as the students earnestly vied with each other for the honor of being chosen first.

A contest for the banner given to the best room in each grade was carried on, and the pupils responded as enthusiastically as they had the first year. The rooms are graded on three points: 1. Collective Posture; 2. Execution of Exercise Drill; 3. General alertness—discipline.

The 1935 Baseball team was mostly composed of green material, due to the graduation of eight of the 1934 championship team. However, with a fine competitive spirit, the boys, although showing their lack of experience by costly mistakes, came through to win the Midland League pennant, newly reorganized, comprising the

teams from Marlborough, Hudson, Clinton, Maynard and Milford. The team wound up with a rush, winning four of its last five games, and losing one by a close decision to the most powerful St. Mary's team in years. The season's record showed eight wins and eleven losses. The 1936 season is highly promising as all the 1935 team returns with the exception of Captain Bonetti.

The 1935 football season opened with bad news when three veterans decided not to play football, and three more veterans decided to go to St. Mary's. Thus what should have been a veteran team was transformed into a comparatively green one. Again, against desperate odds, Milford came through to win the Midland League pennant—outfighting Hudson High for the top and furnishing that fine team with its only defeat of the season by a brilliant 7 to 6 win in a last minute rally. Injuries were light this year, and again we are happy to report that no boy was seriously hurt at Milford High School through football. The record was: four wins, four losses, one tie.

Comment of Frederick E. Steeves, Athletic Director.

MUSIC

The following is from the report of Miss Helena F. Swift, Supervisor of Music:

Our first consideration in all music work in the schools is the child: his mental and emotional condition, his tendencies and possibilities for absorbing music. Throughout the grades we have taught those musical compositions which, we hope, will inspire the pupil to greater musical endeavors in later life. Therefore, much attention has been given to the voice, presenting songs within the proper vocal compass whether in the first grade or in the Junior High School, so that all vocal strain may be eliminated and natural voice production fostered. The children have been taught to phrase carefully, thus promoting proper breathing, which has a definite influence on the singing tone.

In addition to the singing part of our program for the year, stress has been placed upon the technical side of music. The pupils have become familiar with, or have increased their knowledge of, scales in different keys, arpeggios, octaves and transposition.

In the Senior High School the students have studied the works of the great musical composers. A class in Theory and Harmony has been formed again this year. Excellent results have been attained thus far.

INSTRUMENTAL MUSIC

It gives me great pleasure to report the progress of the new Instrumental section instituted this year.

In the grammar grades we have an enrollment of one hundred twenty-five enthusiastic pupils. Out of this group a band of seventy-five pieces was organized with the following instruments: 24 cornets, 22 clarinets, 4 saxophones, 7 trombones, 1 flute, 4 mellophones, 3 baritone, 3 basses and 7 percussion instruments.

This group is divided into five classes which receive their theoretical training according to an arranged morning schedule and instrumental practice after school hours.

The organization has progressed so rapidly that it is hoped they will make their initial appearance in the spring.

The High School orchestra of 40 pieces is progressing along more advanced lines and will present its fourth annual concert this spring.

Report of Mr. Ben C. Lancisi, Jr., Instructor.

ART

Teaching conditions in the Art Department at the High School for the past year have been most difficult, first, because of noisy excavations directly under our windows and second, because of crowded conditions in the school. In September the art room was moved from the High School building to the teachers' room of the

Stacy School. I want to thank the teachers of this building who were kind enough to coöperate with me in this trying situation. The art work, nevertheless, has been carried on with some excellent results.

The study of Art promotes graphic expression and skill, critical observation, discriminating taste, enjoyment of color, creation and appreciation of beauty, the worthy use of leisure, and respect for organization. Stressing each of these points, problems using such mediums as water color, pencil, pen and ink, charcoal, pastels, poster colors and modeling clay have been employed. Modeling and casting still hold an enthusiastic popularity with the pupils.

An important project during the year was the making of large stained glass windows of paper the exact size of the art room windows. Each student made a small scale drawing and painting. Three good sketches were then selected and enlarged to the proper size. When these were finished and in place the soft colorful glow through the tinted paper was a perfect esthetic imitation of the real stained glass. These were later displayed at the Better Homes exhibition in June. The Art pupils also assisted in decorating store and booths—and constructing a small scale model house and garden with garden sculpture.

Instrumental drawing still follows the prescribed course of study.

In the Stacy School art problems are planned to correlate with other subjects, not only teaching art principles but emphasizing the value of both subjects as related to each other.

The girls' vocational classes are studying art as related to their own particular needs. Food and hygiene problems, costume problems, home decorating and planning—all these and many more are taught through the medium of their art lessons.

Report of Miss Dorcas Whipple, Supervisor.

The report of Miss Margaret V. Condon, Assistant Art Supervisor, follows:

Communities are enriched by individuals who have an artistic appreciation. Beautiful parks, homes, playgrounds and other civic projects are the results of trained aesthetic taste.

With this in view, the art lessons in the elementary grades aim to develop in the child a love for beauty and self confidence in his own creative ability. The course consists of lessons dealing with design work, illustrating, lettering, nature study, and construction.

Through the kindness of our librarian, Miss Blake, the children had two very successful exhibitions in the Public Library. The first one consisted of valentines submitted by all the grades, and the second one included free brush designs created by the fifth and sixth graders. These exhibitions gave the public the opportunity to become acquainted with the results obtained through art instruction. Every class has its own display, but few people see the work that affords so much pleasure for the children.

At Christmas time the boys and girls made useful gifts including cut out silhouettes for wall plaques, calendars, work baskets, and pads to be used for hot dishes. They also designed some of their own Christmas booklets.

Most of the children in the Special Classes derive great pleasure through drawing. Given the opportunity, I feel sure some of these pupils would accomplish some remarkable work in handicraft.

MILFORD TEACHERS' ASSOCIATION

President	Harold M. Moran
Vice President.....	Margaret M. Scully
Chairman of Ex. Com.....	Mary H. McDermott
Secretary	James A. Higgiston
Treasurer	Catherine E. Curtin
Chairman of Social Com....	Flora M. Youngson

The Association organized in October for the scholastic year of 1935-36 with the largest enrollment in its history.

A regular meeting is held each month at which time professional problems are discussed; business with the Massachusetts State Federation of Teachers is transacted; worthy community drives are sponsored; and the group is generally addressed by a speaker on educational matters.

It was with deep regret that the association learned of the death of Mrs. Helen Winifred Bird on May 2, 1935. Mrs. Bird was a past president of the Milford Teachers' Association and was held in the highest esteem by her students and fellow teachers.

The annual banquet which is to be held this year in February is to be a testimonial in honor of John L. Davoren, a past president of the organization, who has recently been appointed to a responsible position in our State Department of Education.

Respectfully submitted.

JAMES A. HIGGISTON,
Secretary.

REPORT OF THE SCHOOL PHYSICIANS

Milford, Jan. 18, 1936.

To the School Committee:

The report of the general examination of our pupils for the current year is once more submitted. As usual it will be seen that the physical defects are more numerous in the lower grades, and the High School shows the highest percentage of pupils having no notable defects. The percentage of this class is lower in each group than it was last year; this may be due to economic conditions.

It may be that, encouraged by last year's high percentage and the evident coöperation of the parents, we have become more critical in our inspection and have sought even better results by sending notices to the parents for some defects which we formerly classified as slight.

In the 1934 report the whole school system showed just 50% without notable defect. This year the figure has dropped to 42%; in 1933 it was 46%.

Primary Department—Number of Pupils, 963

No. having no notable defects	257=27%
No. having slight defects	385
No. having serious defects	321
No. having mouth or teeth defects	542
No. having nose or throat defects	238
No. having miscellaneous defects	4

Grammar Department—Number of Pupils, 971

No. having no notable defects	427=44%
No. having slight defects	261
No. having serious defects	238

No. having mouth or teeth defects	439
No. having nose or throat defects	158
No. having miscellaneous defects	7

High School Department—Number of Pupils, 745

No. having no notable defects	430=58%
No. having slight defects	181
No. having serious defects	134
No. having mouth or teeth defects	261
No. having nose or throat defects	83
No. having miscellaneous defects	18

Whole School Department—Number of Pupils, 2679

No. having no notable defects	1,114=42%
No. having slight defects	827
No. having serious defects	738
No. having mouth or teeth defects	1,242

CLASS ODE

Music and Words by Robert Rivard '35.

Farewell, dear Milford High, we now must leave thee;
 We part with friends and part with teachers true.
 The path now leads to life's storm-tossed sea;
 Dear mother, we bid thee adieu.
 Forward we go through life and trials unending
 Where foes and friends forever we must meet;
 But with thy guidance ever kind and loving,
 Our class shall never, never know defeat.

CHORUS

Yes, Alma Mater, we shall ne'er forget thee;
 Thy mem'ry in our hearts shall e'er be dear.
 With this our motto: "Always, Ever Onward,"
 We'll press ahead with faith and hope and cheer.

For now we leave to start on our long voyage,
 And as we go our eyes are dimmed with tears;
 But we will always think of you for courage,
 Thy guiding hand will calm our fears.
 Our light will be our knowledge, never failing
 To aid us conquer in this endless fight.
 As o'er this sea our fragile bark goes sailing,
 Thy teachings true will ever be our might.

(Dedicated to Miss Helena F. Swift.)

ANNUAL TOWN MEETING, MARCH 4, 1935

COMMONWEALTH OF MASSACHUSETTS

Worcester, ss.

Milford, March 4, 1935.

Pursuant to the foregoing warrant issued by Selectmen, the qualified voters of Precinct 4 of said Milford assembled at the time and place designated for the purposes therein expressed. The following named Election Officers were present and served as follows:

Names	Office	Sworn by:
Walter B. McFarland.....	Warden.....	Dennis J. Sullivan
George Daigle	Clerk.....	Dennis J. Sullivan

The following Precinct Officers appointed by the Selectmen were sworn by the Precinct Clerk:

George Wright, Deputy Warden.

Paul E. Lynch, Deputy Clerk.

Inspectors to check names on voting lists:

William Williams, Jr., Edward J. O'Sullivan, John J. Gilroy, Fred J. Colligan.

Deputies: Bennie Colabello, Will E. Southland, Michael Leoce.

Ballot Clerks: Ralph Bowley, Thomas H. Brennan.

The cards of instructions, penalty cards and specimen ballots received from the Town Clerk having been duly posted, the warrant as hereinafter before recorded was read by the Precinct Clerk.

The ballot box was examined by the Precinct Officers and found to be empty. The register was set at 0000, the box was locked and the keys delivered to the Police Officer on duty at the meeting. The sealed packages received from the Town Clerk, containing the official ballots, were opened by the Presiding Officers. The ballots were delivered by him to the Ballot Clerks.

The polls were declared open at eight o'clock A.M.

During the voting the ballot box was opened by the unanimous consent of the Warden and Clerk, twice for the purpose of taking out, sorting and counting the ballots; first at 5 o'clock P.M. when it registered 500, and at the close of the polls, 8 o'clock P.M. when it registered 1,081. The ballot box became out of order and failed to register properly.

The following Precinct Officers appointed by the Selectmen to sort and count the ballots were sworn by the Precinct Clerk:

John E. Wallace, Thomas J. Ryan, William F. Murray, Leo Pellegrino, William Fitzgerald, Fred McDonough, John C. Rubery, Frank C. Consoletti, Maurice Fitzgerald, Stephen J. Venditti, Joseph G. Lipman, Antonio San nicandro, Robert H. Knight, Arthur L. Reynolds, John A. Halliwell, William F. Manning, and began their duties at six o'clock P. M.

The polls were declared closed at eight o'clock P.M. The register on the ballot box indicated 1,081.

After closing of the polls the Officers in charge of the voting lists audibly counted and announced the whole number of names checked on said lists to be 1,088. The ballots were removed from the ballot box by the Presiding Officer and found to be 1,088 ballots cast.

The ballots cast having in open meeting been duly sorted and counted by the proper Officers and recorded and declared in open meeting to be as hereinafter set forth.

The result of the ballot was announced at 9 o'clock A.M., March 5, 1935.

The ballots cast and the voting lists were sealed as required by law, also the unused ballots, all certified by the Election Officers, and delivered to the Town Clerk, March 5, 1935, at 9:38 A. M.

ANNUAL TOWN MEETING, MARCH 11, 1935

COMMONWEALTH OF MASSACHUSETTS

Milford, Mass., March 11, 1935.

Worcester, ss.

At a legal meeting of the inhabitants of the Town of Milford, qualified by law to vote in Town Affairs, held on this eleventh day of March, A.D. 1935, at eight o'clock in the evening, the said inhabitants proceeded as follows:

The meeting was called to order by the Moderator.

The Town Clerk proceeded to read the Warrant.

After the reading of Articles 1 and 2, it was Voted: To dispense with the reading of the remainder of the Articles in the Warrant.

The Clerk called the roll of Town Meeting Members. There were 209 Town Meeting Members recorded as being present.

Article 1. *Voted:* To accept the reports of all Town Officers as printed in the Annual Town Report.

Article 2. *Voted:* That the Moderator appoint a Committee to draw up a set of rules for procedure and that they be submitted to the Meeting.

The following Committee was appointed: Hon. P. Eugene Casey, Walter L. Adams, John F. Curran.

Myron Morey, Sec'y of Finance Committee, presented the report of the Committee.

REPORT OF MILFORD FINANCE COMMISSION ON APPROPRIATIONS FOR 1935

To the Town Meeting Members and Voters of Milford:

After several weeks of study and hearing of department heads, on their requirements for the year 1935, we have set up the amounts that follow as fair and just appropriations for keeping the business of the Town running on as efficient a scale as we can afford.

We have taken into consideration the fact that our appropriations must be approved by the State Emergency Finance Board,—that because of the split tax pay-

ment method to be used this year the tax rate must be fixed by April 30th, and that no additions to this year's budget may be made after that date; also that the tax burden is increasingly hard to meet and should be kept as low as is possible.

We have made no recommendations in the cases of Unpaid Bills of 1934, because we feel that each department should so plan their operations that there should be no unpaid balances, except in unusual cases of emergency, which may better be explained direct to the voters by the department heads.

In order that you may have information available for comparison of amounts, we have placed in a column at the LEFT of the department name the amount of actual expense of that department for 1934, and in a column at the RIGHT of the name the amount we recommend for 1935. We have subdivided the amounts and have explained in footnotes any great differences, so you may know what is contemplated.

Article 12. The Finance Committee recommend the insurance of Town property under a blanket policy, but have not sufficient information under the Article to make definite recommendations as to an appropriation.

Article 13. We recommend that the sum of \$100. be raised and appropriated.

Article 15. The Finance Committee makes no recommendations on this Article.

Article 16. As there is now a competent committee that is considering an appropriate war memorial, we feel that until this committee makes its report no action should be taken on this Article.

Article 17. We recommend that this Article be passed over, because we feel that all the town can afford in 1935 has been appropriated for playgrounds.

Article 18. We recommend that favorable action be taken, because the injury was received in line of duty.

Article 19. We recommend that the Article be passed over, because we feel the town should not assume this expense in 1935. We also feel that it is improbable the State Emergency Finance Board would pass it.

Article 20. We recommend the appropriation of \$5,000. for Cedar Street construction.

Article 21. We recommend the appropriation of \$2,500 for Medway Road construction.

Article 22. As funds are not available from State and County for this project in 1935, we recommend the Article be passed over and taken up in 1936.

Article 23. We recommend that favorable action be taken on this Article.

Article 24. We recommend favorable action, because the taking of this census is required by Massachusetts law.

Article 25. We recommend that \$65,000 be raised and appropriated and the town be bounded as suggested in the Article, but the money be used only for materials, tools, trucking and engineering fees. We further recommend that the Board of Selectmen act in an advisory capacity with the Sewer Board in the carrying out of the project.

Article 28. We recommend favorable action on this Article, in accordance with the Massachusetts law, which has been accepted by the Town.

Article 30. The Finance Committee favors the acceptance of the street as a Public Way, and that it be made passable, but with no considerable expenditure of money, until the proper sewerage has been installed.

Article 31. We recommend that favorable action be taken on this Article.

Article 32. The Finance Committee recommends that \$2,000 be raised and appropriated to start this pension fund.

Respectfully submitted,
MILFORD FINANCE COMMITTEE,
W. L. ADAMS, *Chairman*.

Under Article 2 it was voted to raise and appropriate the sum of Fifteen hundred dollars for Workmen's Compensation and Public Liabilities Policies (Premium), the same to be placed through local agents or brokers.

Unanimous consent was requested for presentation of a resolution. Voted to grant the request.

RESOLUTION

JOINT RESOLUTION MEMORIALIZING CONGRESS TO USE
GRANITE IN THE CONSTRUCTION OF PUBLIC BUILDINGS

WHEREAS, the FEDERAL Government is contemplating an extensive public works program, under which many public buildings will be erected throughout the United States and;

WHEREAS, the present status of unemployment in the granite industry in the State of Massachusetts and other granite producing states is deplorable, it being estimated that from eighty to eighty-five per cent of granite employees are on Federal Relief; and

WHEREAS, the greater portion of the cost of finished granite is incurred by labor; and

WHEREAS, the quality and durability of granite buildings unquestionably excels that of buildings constructed of inferior materials; and

WHEREAS, from the standpoint of economy and prudent policy it is advisable that lasting and durable materials be used in the construction of public buildings:

NOW, BE IT THEREFORE RESOLVED by the Citizens of Milford, Massachusetts, in Town Meeting assembled this eleventh day of March, 1935, that Congress be respectfully urged and petitioned to enact Legislation, or to otherwise take appropriate action to require that granite be used in the construction of public buildings to be erected under the public works program; and that the Moderator and Town Clerk be instructed to send copies of this Resolution to the President, Vice President, Secretary of the Treasury of the United States, and to the Member of Congress from the State of Massachusetts.

Voted to accept and adopt the resolution. Unanimous vote.

TOWN WARRANT

COMMONWEALTH OF MASSACHUSETTS

Worcester, ss.

To Either Constable of the Town of Milford, in said
County: Greeting:

In the name of the Commonwealth aforesaid, you are hereby required to notify and warn the inhabitants of

the Town of Milford, qualified by law to vote in Town Affairs, to meet in the Town Hall, in said Town on Monday, the sixteenth day of September, A.D. 1935, at eight o'clock in the evening, then and there to act upon the following articles, namely:

Article 1. To see if the Town will vote to prescribe the manner by which notice shall be given of all Town Meetings; or take any action in relation to the same.

Article 2. To see if the Town will vote to accept the offer of the United States of America to aid the Town in financing the construction of a sewage treatment plant by making a grant to the Town in the amount of forty five per centum (45%) of the cost of said project (but not exceeding \$40,500.00) subject to Federal rules and regulations, and authorize the Board of Sewer Commissioners to construct said project and contract with respect thereto, or take any action in relation to the same.

Article 3. To see if the Town will vote to raise and appropriate the sum of \$89,815.00 including the amount of \$4,000 appropriated under Article 25 of the Warrant for the annual Town Meeting of 1935, to meet the cost of completing the construction of an additional sewage treatment plant of the Imhoff Trickler Type at the sewage disposal works, and to authorize the Town Treasurer, with the approval of the Selectmen, to borrow such sums as may be necessary to meet any appropriation made, under the provisions of Chapter 404, Acts of 1935, or take any action in relation to the same.

Article 4. To see if the Town will vote to raise and appropriate the sum of \$35,000.00 for the purpose of meeting part of the cost of improving the Cedar Swamp Pond property, so-called, now owned by the Town by the construction of walls around said Pond, and to authorize the Town Treasurer, with the approval of the Selectmen, to borrow said sum under the provisions of Chapter 188, Acts of 1935, or take any action in relation to the same.

Article 5. To see if the Town will vote to raise and appropriate the sum of \$10,000.00 for the purpose of meeting part of the cost of constructing a dam in the Cedar Swamp Pond, on property now owned by the Town, and to authorize the Town Treasurer, with the approval of the Selectmen, to borrow said sum under the provisions of Chapter 188, Acts of 1935, or take any action in relation to the same.

And you are hereby directed to serve This Warrant by posting up attested copies thereof at each of the Public Meeting Houses, in each voting precinct and at the Post Office in said Town; also cause an attested copy to be published in the Milford Daily News, a newspaper published in said Town, Two Sabbaths at least before the time set for said meeting.

Hereof Fail Not, and make due return of this Warrant with your doings thereon to the Clerk of said Town at the time of meeting aforesaid.

Given under our hands at Milford this third day of September, A. D. 1935.

SPECIAL TOWN MEETING, SEPTEMBER 16, 1935

COMMONWEALTH OF MASSACHUSETTS

Milford, September 16, 1935

Worcester, ss.

At a legal meeting of the inhabitants of the Town of Milford qualified by law to vote in Town Affairs, held this sixteenth day of September, A. D. 1935, at eight o'clock in the evening, the said inhabitants proceeded as follows:

The meeting was called to order by John T. McLoughlin, Moderator, at eight o'clock P. M.

The Town Clerk read the warrant and the officers return thereon.

There were 152 Town Meeting Members present, said number constituting a quorum.

The Finance Committee through Myron Morey, Secretary, presented the following report:

Mr. Moderator:

Voted: That the Finance Committee recommend that favorable action be taken on Article (3) three.

Voted: The Finance Committee recommend the expenditure of the sums called for in article (4) four and

(5) five of the Warrant provided there are no land damages, for the purpose of developing the plans as submitted to the Finance Committee minus the West Shore driveway and bridge, but including all the work specified for the entire development plus the bathing beaches.

The work not to be begun until after an official survey had been made and bounds placed establishing the town line.

This recommendation is made contingent on the Federal Government allotting for these projects the sum of (\$192,000.00) one hundred and ninety two thousand dollars.

W. L. ADAMS,
Chairman.
M. MOREY,
Secretary.

ARTICLE 1. Voted: That notice of every Town Meeting shall be given at least seven days before such meeting by publishing an attested copy of the Warrant therefor in a newspaper published and having a general circulation in the Town of Milford, and by posting, at least seven days before such meeting, attested copies of the Warrant therefor in five or more public places located in said Milford.

Voted: To pass over the remainder of the article.

ARTICLE 2. Voted: That the offer of the United States of America to aid the Town in financing the construction of a sewage treatment plant, said offer being in terms as follows:

FEDERAL EMERGENCY ADMINISTRATION OF PUBLIC WORKS

Washington, D. C.
August 9, 1935.

Town of Milford, State File No. Mass. 1026.
Milford, Massachusetts.

Subject to the Rules and Regulations (PWA Form No. 179, July 22, 1935) which was made a part hereof, the

United States of America hereby offers to aid in financing the construction of a sewage treatment plant (herein called the "Project") by making a grant to the Town of Milford, in the amount of forty-five (45%) per centum of the cost of the Project upon completion, as determined by the Federal Emergency Administrator of Public Works, but not to exceed, in any event, the sum of \$40,500.00.

UNITED STATES OF AMERICA,
*Federal Emergency Administrator
 of Public Works*

By

S. W. CLARK,
Assistant Administrator.

be and the same hereby is accepted.

Voted: That the Board of Sewer Commissioners are authorized to proceed with the construction of said project and enter into all necessary and property contracts and agreements in respect thereto, all subject to applicable federal regulations; and the Board of Sewer Commissioners are authorized to do all other acts and things necessary or convenient for obtaining said grant, for asking said loan, and for constructing said project. The vote was unanimous. Voice vote.

ARTICLE 3. Voted: That there be appropriated the sum of \$69,815.00 to meet the cost of completing the construction of an additional sewage treatment plant of the Imhoff Trickler Type at the sewage disposal works, in accordance with plans drawn by F. A. Barbour, Engineer of the Sewage Commission; and that to meet said appropriation, the amount of \$4,000.00 appropriated under Article 25, of the Warrant for the annual Town Meeting of 1935 be transferred for this purpose, and that the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow for a term not exceeding twenty years, a sum not to exceed \$50,000.00 at a rate of interest not to exceed three and one-half per cent per annum, and to issue bonds or notes of the Town therefor, said bonds or notes to be payable in accordance with the

provisions of Chapter 44, G. L. (Ter.Ed.) and Chapter 404 of the Acts of 1935. All money received from the Federal Government on account of this project shall be applied to meet the cost of said project, or, in case the amount of loan authorized is in excess of the town's share of the cost, it shall be applied to the loan herein authorized to the extent of such excess. The loan of \$61,000.00 authorized under Article 25 of the Warrant for the annual Town meeting of 1935, as amended at the special Town Meeting held May 20, 1935, is hereby cancelled.

Yes: 143

No: 0.

Voted: To pass over the remainder of the article.

ARTICLE 4. Voted: That there be appropriated the sum of \$35,000.00 for the purpose of meeting part of the cost of improving the Cedar Swamp Pond property, so-called, now owned by the Town, in accordance with plans drawn by the E. R. A. Engineering Department at Boston, Massachusetts; and that to meet said appropriation, the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow for such period and at such rate of interest as may be determined by the Emergency Finance Board, a sum not to exceed \$35,000.00 and to issue bonds or notes of the Town therefor, said bonds or notes to be payable in accordance with the provisions of Chapter 188 of the Acts of 1935; PROVIDED, however, the project therefor is approved by the Works Progress Administration, and a sum not less than \$159,000.00 is allotted by it to pay the labor cost necessary to carry out said improvement, and provided further that the Selectmen before proceeding with the construction of said project shall save the town harmless from and on account of all land damages.

SPECIAL TOWN MEETING, DECEMBER 9, 1935

COMMONWEALTH OF MASSACHUSETTS

Worcester, ss.

Milford, December 9, 1935.

At a legal meeting of the inhabitants of the Town of Milford, qualified by law to vote in Town Affairs held this ninth day of December, A.D. 1935 at eight o'clock in the evening, the said inhabitants proceeded as follows:

The meeting was called to order by John T. McLoughlin, Moderator.

The names of Town Meeting Members present were checked and it was found that there was not a quorum.

Voted: to declare a recess for five minutes.

The meeting was again called to order, the names of Town Meeting Members were checked and it was found that 119 Members were present, said number constituting a quorum. The Town Clerk read the warrant and the Officer's return thereon.

Article 1. The Finance Committee through Myron Morey, Secretary presented the following report.

Milford, Mass., December 9, 1935.

Mr. Moderator:

The Milford Finance Committee has Voted: That favorable action be taken on Article (3) Three, Article (4) and Article Five (5) of the Warrant for the Town Meeting of December 9, 1935.

Sincerely yours,

MILFORD FINANCE COMMITTEE,

WALTER L. ADAMS, *Chairman*.

Voted: To receive and accept the report of the Finance Committee.

Robert Allen Cook, Chairman of the Committee on War Memorial submitted the following report for the Committee.

REPORT OF COMMITTEE ON WAR MEMORIAL

TOWN OF MILFORD, MASSACHUSETTS

Your Committee on War Memorial beg at this time to submit their report.

After long consideration of the subject as to a suitable memorial and location for the same, the several kinds, designs and locations, from time to time, this Committee has come to a unanimous decision.

That the present Honor Roll on Gen. Draper Park is at present in a dilapidated condition, beyond reasonable repair, and presents hardly a creditable appearance to that part of the park or a proper respect to our veterans.

To remove it and not replace by a permanent memorial would not be in keeping with the pledges 15 years ago to the veterans, when we as citizens welcomed them home, and promised due gratitude and recognition for their service.

The Committee is encouraged to recommend at this time, the erection of a permanent memorial as it seems quite certain that Federal funds can be obtained to defray the greater portion of the cost; the Committee has the hearty co-operation of the Board of Selectmen in the effort to secure a Federal grant. The construction of the memorial at this time will add materially to the employment of our local granite workers, which actuates the Government to look with favor upon such a grant.

The Committee recommend that the memorial be of a monumental type and located on Gen. Draper Park, and face Main street, about in the location of the present Honor Roll, but a little farther back from the sidewalk line. It has been a long standing local custom, to do planting at the base, and Memorial Day on the march to Vernon Grove Cemetery, for the veterans to halt at the present Honor Roll, hold a brief service, before continuing on to the cemetery. This location and the planting space provided in the design suggested, provide for the

continuance of these customs. This location offers a prominent position for the displaying locally an example of the monumental type of structure, as recommended, when executed in our Milford granite. The carved urn feature, an example of its beauty, when used in such work.

The Committee after due consideration of many designs have unanimously selected and recommended the adoption of a design of Robert Allen Cook and Wendell T. Phillips, Associate Architects.

A memorial Classic in general style, which it is contemplated built of our Milford granite.

It consists of a central shaft 14½ ft. wide and 14½ ft. high resting on a red and blue-stone flag paved platform 31 by 15 ft. two steps above grade, with curved retaining walls 3 ft. high from the central shaft, on each side, and at pedestals which are surmounted by carved granite urns, an ornamental feature. The steps slightly curved and extending across the entire front between the pedestals.

On the face of the shaft the bronze Honor Roll 9 by 7 ft. upon which inscribed the 726 names of Milford's World War Veterans, above it a bronze shield with the Town Seal. On the inside of the retaining walls in 6" incised letters the general inscription.

It has been estimated as a W. P. A. project and as considered by the Federal authorities for a grant, the cost to erect complete including grading, at \$27,905.00; the Federal funds provide \$21,147.00 leaving \$6,758.00 for such portions as are to be provided by the Town.

Respectfully submitted,

ROBT. ALLEN COOK,
WALTER B. McFARLAND,
ELBERT M. CROCKETT,
WILLIAM L. POWER,
PIO GUGLIELMI,

Committee on War Memorial.

Dec. 9, 1935.
